*Technocapitalism* Loretta Napoleoni, 2024-04-16 A fascinating look at how the Space Barons and Tech Titans heads of companies like Uber Amazon Tesla have hijacked technology preventing it from being used on behalf of the common good and profiting from the politics of fear and consumerism The respected Italian economist and journalist offers a bold and provocative argument that the speed of technological transformation is threatening our future At the dawn of the digital revolution the internet was going to be the great equalizer a global democratic force Instead with the money printed electronically to bail out banks Wall Street ended up funding a new breed of serial capitalists the Tech Titans who embraced rapid transformational change while stripping their workers of rights and enriching themselves beyond anybody s wildest imagination and the Space Barons who mine new frontiers for precious resources Then came the gig economy another supposed digital equalizer where everybody was his or her own boss but it was just another illusion Tech pioneers like Google Facebook Apple Uber and Microsoft never had any intention of spreading democracy Those who control and own the technology are the absolute masters As artificial intelligence enters the labor market companies like Uber are able to cut labor costs to the barest of minimums by squeezing workers privileges and rights In *Technocapitalism* Napoleoni describes these phenomena as the genesis of a new paradigm born in a period of extraordinary change in which the acceleration of transformational change has caused a dizzying anxiety induced paralysis from the FTX collapse to AI private space companies to the war in Ukraine from inflation to the dirty environmental truth of EV car batteries Technological transformation is occurring at a speed that is existentially unbearable
