Resilience of Luxury Companies in Times of Change Gabriella Lojacono,Laura Ru Yun Pan,2021-08-23 Why do some luxury companies remain resilient through times of change while others do not The reason is that these companies have unique skills to diversify their revenue generation by being ambidextrous Luxury companies today cannot depend on their reputation or their creativity alone to remain resilient rather they require the ability to be ambidextrous to explore new trajectories for future growth and exploiting their iconic values In past decades the industry has shifted from product to customer centric and forced companies to adopt new strategies and approaches to succeed This includes the adoption of digital platforms such as ecommerce social media and mobile enabled tools to continually elevate customer experience In addition new business models have emerged to address growing pains particularly in inventory issues over manufacturing

and sustainability Brands today are forced to adopt evolution through innovation that is anchored by new values without compromising their DNA Based on in depth research and interviews with CEOs from leading luxury companies Lojacono and Pan show how companies can hedge their risks and remain resilient in times of change **What has EX IM Bank done for small business lately?** United States.
