shaped and understood in the context of significant and ongoing shifts in online communication. Chapters cover a range of topics including advances in social networking, the development of deepfake videos, intimacies of everyday communication, the emergence of cultures based on algorithms, the authenticities of TikTok and online communication's setting as a site for hostility and hate speech. Throughout the text, author Rob Cover shows how the formation and curation of self-identity is increasingly performed and engaged with through digital cultural practices, affirming that these practices must be understood if we are to make sense of identity in the 2020s and beyond. Featuring critical accounts, everyday examples, and analysis of key platforms such as TikTok, this textbook is an essential primer for scholars and students in media studies, psychology, cultural studies, sociology, anthropology, computer science, as well as health practitioners, mental health advocates, and community members.

The Oxford Handbook of Digital Media Sociology Deana A. Rohlinger, Sarah Sobieraj, 2022. The Oxford Handbook of Digital Media Sociology is an indispensable resource for students and scholars interested in understanding how new information and communications technologies shape social life. Chapters written by experts from around the world explore the role digital media play in numerous contexts, including the intimate and personal elements of social life such as our identities and closest relationships, as well as in larger social phenomena such as racial inequality, labor markets, education, and war. This handbook is ideal for classroom use and library acquisition, as each stand-alone chapter, whether on dating apps or disinformation, offers accessible and succinct overviews of what research has shown thus far and what questions remain unanswered.
