One Language Source Of All Tongues:

One Language Arnold D. Wadler, 2006 From ancient times we are told in the story of the Tower of Babel human beings have been separated by different languages and consequently different cultures Over the centuries this division has increased and the distance between nations and peoples has prevented true communication and understanding Gradually mutations of meaning within single languages have further isolated individuals from one another Toward the end of the twentieth century however a newly intensified consciousness arose one that sought the basis of a new unity This has resulted in among other things the budding globalization of world societies economically politically and culturally Linguists and language historians have long searched for the source of our original unity the one language from which we were separated Inspired by a pamphlet on the origin of language by Hermann Beckh and encouraged by his study of Rudolf Steiner's works Dr Arnold D Wadler began thirty years of devoted research into the tongues of various human families In *One Language* he lifts the veil from pre Columbian America and reveals its place in the developing life of earthly human beings Based on language and custom ancient America can be seen as the key to the question of the common primeval tongue of the origin of humanity and modern civilization His comprehensive grasp of the subject and his broad understanding of history religion art and the science of language places this book among the classics of spiritual scientific literature Chapters include The Tower of Babel The Origin of Writing in Picture Consciousness The Spirit of Words The Lost Continent of Atlantis American Tongues and Universal Human Speech Language in the Past and Future *One Language, Source of All Tongues* Arnold Wadler, 1948 The Extractor; or Universal repertorium of literature, science, and arts. Ross, Regina Randhofer, 2021-11-22 Jews and Armenians are often perceived as peoples with similar tragic historical experiences Not only were both groups forced into statelessness and a life outside their homelands for centuries in the 20th century in the shadow of war they were threatened with collective annihilation Thus far academic approaches to these two classical diasporas have been quite different Moreover Armenian and Jewish questions posed during the 19th and 20th centuries have usually been treated separately The conference We Will Live After Babylon that took place in Hanover in February 2019 addressed this gap in research and was one of the first initiatives to deal directly with Jewish and Armenian historical experiences between expulsion exile and annihilation in a comparative framework The contributions in this volume take on multidisciplinary approaches relating to the conference's central themes
