

Onguard Viewer Manual

S Marginson

A red circular graphic with a gradient, appearing as a stylized arrow or a partial circle, located to the right of the author's name.

Onguard Viewer Manual:

On Guard Milton Lipson, 1975 A descriptive analysis of the industry by a specialist in security and investigation The author begins by explaining why the industry is very much a product of its history tracing the sorting out over two centuries of private versus public police functions His analysis covers the principal categories of private security The typical uses and abuses of security guards are discussed Personnel and training practices are examined and criticized In background and experience fraud investigators are seen as contributing greatly to the reputation and effectiveness of the industry The armored car segment is generally effective with most losses due to failure by employees to follow prescribed procedures Need is seen for improved security equipment especially in alarm systems Lipson is most critical of the lack of private security legislation He concludes that there is a need for an institute for private security independent of the industry for research evaluation as a teaching facility and as an aid to congress in suggesting regulatory legislation Stand on Guard Stephanie Carvin, 2021-05-07 Stand on Guard provides a nuanced explanation of Canadian national security threats such as violent extremism espionage and clandestine foreign influence emphasizing trust and empathy in developing national security policies to counter them *Manual, New Bayonet and Firing Exercises for the Martini-Henry Rifle and Carbine*, 1889 **National Computer Security Conference Proceedings, 1992** DIANE Publishing Company, 1992-11 Held October 13 16 1992 Emphasizes information systems security criteria how it affects us and the actions associated with organizational accreditation These areas are highlighted by emphasizing how organizations are integrating information security solutions Includes presentations from government industry and academia and how they are cooperating to extend the state of the art technology to information systems security 72 referred papers trusted systems tutorial and 23 executive summaries Very valuable Must buy **15th National Computer Security Conference**, 1992 **On Guard Against Accidents** Red Cross (United States).
