Black Intellectual Thought in Education Carl A. Grant, Keffrelyn D. Brown, Anthony L. Brown, 2015-09-25 Black Intellectual Thought in Education celebrates the exceptional academic contributions of African American education scholars Anna Julia Cooper Carter G Woodson and Alain Leroy Locke to the causes of social science education and democracy in America By focusing on the lives and projects of these three figures specifically it offers a powerful counter narrative to the dominant established discourse in education and critical social theory helping to better serve the population that critical theory seeks to advocate Rather than attempting to rescue a few African American scholars from obscurity or marginalization this powerful volume instead highlights ideas that must be probed and critically examined in order to deal with prevailing contemporary educational issues Cooper Woodson and Locke s history of engagement with race democracy education gender and life is a dynamic demanding and authentic narrative for those engaged with these important issues

Digitally Invisible Nicol Turner Lee, 2024-08-06 Billions of people around the world lack internet access No one cared until the whole world had to go online President Joe Biden has repeatedly said that the United States would close the digital divide under his leadership However the divide still affects people and communities across the country The complex and persistent reality is that millions of residents live in digital deserts and many more face disproportionate difficulties when it comes to getting and staying online especially people of color seniors rural residents and farmers in remote areas Economic and health disparities are worsening in rural communities without available internet access Students living in urban digital deserts with little technology exposure are ill prepared to compete for emerging occupations Even seniors struggle to navigate the aging process without access to online information and remote care In this book Nicol Turner Lee a leading expert on the American digital divide uses personal stories from individuals around the country to show how the emerging digital underclass is navigating the spiraling online economy while sharing their joys and hopes for an equitable and just future Turner Lee argues that achieving digital equity is crucial for the future of America s global

Planned Violence

Elleke Boehmer, Dominic Davies, 2018-11-29 This book brings the insights of social geographers and cultural historians into a critical dialogue with literary narratives of urban culture and theories of literary cultural production In so doing it explores new ways of conceptualizing the relationship between urban planning its often violent effects and literature Comparing the spatial pasts and presents of the post imperial and post colonial cities of London Delhi and Johannesburg but also including case studies of other cities such as Chicago Belfast Jerusalem and Mumbai Planned Violence investigates how that iconic site of modernity the colonial city was imagined by its planners and how this urban imagination and the cultural and social interventions that arose in response to it made violence a part of the everyday social life of its subjects Throughout however the collection also explores the extent to which literary

and cultural productions might actively resist infrastructures of planned violence and imagine alternative ways of inhabiting post colonial city spaces

Views from the Streets Roberto Aspholm, 2020-02-04 Chicago has long served as a symbol of urban pathology in the public imagination The city's staggering levels of violence and entrenched gang culture occupy a central place in the national discourse yet remain poorly understood and are often stereotyped Views from the Streets explains the dramatic transformation of black street gangs on Chicago's South Side during the early twenty first century shedding new light on why gang violence persists and what might be done to address it Drawing on years of community work and in depth interviews with gang members Roberto R Aspholm describes in vivid detail the internal rebellions that shattered the city's infamous corporate style African American street gangs He explores how in the wake of these uprisings young gang members have radically refashioned gang culture and organization on Chicago's South Side rejecting traditional hierarchies and ideologies and instead embracing a fierce ethos of personal autonomy that has made contemporary gang violence increasingly spontaneous and unregulated In calling attention to the historical context of these issues and to the elements of resistance embedded in Chicago's contemporary gang culture Aspholm challenges conventional views of gang members as inherently pathological He critically analyzes highly touted universal violence prevention strategies depicting street level realities to illuminate why they have ultimately failed to reduce levels of bloodshed An unprecedented analysis of the nature and meaning of gang violence Views from the Streets proposes an alternative framework for addressing the seemingly intractable issues of inequality despair and violence in Chicago

Fear of a Hip-Hop Planet D. Marvin Jones, 2013-04-01 Is Gangsta Rap just black noise Or does it play the same role for urban youth that CNN plays in mainstream America This provocative set of essays tells us how Gangsta Rap is a creative report about an urban crisis our new American dilemma and why we need to listen Increasingly police politicians and late night talk show hosts portray today's inner cities as violent crime ridden war zones The same moral panic that once focused on blacks in general has now been refocused on urban spaces and the black men who live there especially those wearing saggy pants and hoodies The media always spotlights the crime and violence but rarely gives airtime to the conditions that produced these problems The dominant narrative holds that the cause of the violence is the pathology of ghetto culture Hip hop music is at the center of this conversation When 16 year old Chicago youth Derrion Albert was brutally killed by gang members many blamed rap music Thus hip hop music has been demonized not merely as black noise but as a root cause of crime and violence Fear of a Hip Hop Planet America's New Dilemma explores and demystifies the politics in which the gulf between the inner city and suburbia have come to signify not only a socio economic dividing line but a new socio cultural divide as well

Brown, Jamel K. Donnor, 2013-09-13 The Education of Black Males in a Post Racial World examines the varied structural and discursive contexts of race masculinities and class that shape the educational and social lives of Black males The contributing authors take direct aim at the current discourses that construct Black males as disengaged in schooling because of an autonomous Black male culture and explore how media social sciences school curriculum popular culture and sport can define and constrain the lives of Black males The chapters also provide alternative methodologies theories and analyses for making sense of and addressing the complex needs of Black males in schools and in society By expanding our understanding of how unequal access to productive opportunities and quality resources converge to systemically create disparate experiences and outcomes for African American males this volume powerfully illustrates that race still matters in post racial America This book was originally published as a special issue of Race Ethnicity and Education
