Jane Ball, 2012-06-25 Social housing appears to offer a solution for the housing of poor and disadvantaged people The French right to housing offers poor and disadvantaged citizens priority in social housing allocation and even a legal action against the State to obtain a social home Despite this France is suffering a long lasting housing crisis with disadvantaged people having particular difficulties of access often despite the efforts of local housing actors This situation is affected by the European Court of Human Rights and EU decisions limiting diverse national housing and rental policies Between historic French revolutions and the modern riots negotiated solutions to social dilemmas emerged Despite progress in constitutional principles complex local negotiations still ultimately determine who is housed Local social landlords mayors and employee and tenant representatives use their privileges to house their insiders existing tenants locals and employees with rent insufficiently subsidized Insider Outsider theory is used for an economic analysis of exclusion in social housing allocation its processes institutional context and stigmatizing effects This highlights the spatial effects of nimbyism excluding disadvantaged outsiders and concentrating them in deprived areas Simultaneously urban regeneration reduced affordable housing stock and social mix became a reason to refuse a social home History comparative law economic theory and local interviews with housing actors give a detailed picture of what happens in and around French social housing allocation for an interdisciplinary housing policy audience Constitutional principles appear in an unfamiliar guise as negotiating positions with the right to property supporting landlords and the right to housing supporting tenants French debates about the function of social landlords are echoed across Europe and reflected in European policies concerning rights and the exclusion of disadvantaged minorities

Moral Rhetoric and the Criminalisation of Squatting Lorna Fox O'Mahony, David O'Mahony, Robin Hickey, 2014-10-24 This collection of critical essays considers the criminalisation of squatting from a range of different theoretical policy and practice perspectives While the practice of squatting has long been criminalised in some jurisdictions the last few years have witnessed the emergence of a newly constituted political concern with unlawful occupation of land With initiatives to address the threat of squatting sweeping across Europe the offence of squatting in a residential building was created in England in 2012 This development which has attracted a large measure of

media attention has been widely regarded as a controversial policy departure with many commentators Parliamentarians and professional organisations arguing that its support is premised on misunderstandings of the current law and a precarious evidence base concerning the nature and prevalence of squatting Moral Rhetoric and the Criminalisation of Squatting explores the significance of measures to criminalise squatting for squatters owners and communities The book also interrogates wider themes that draw on political philosophy social policy criminal justice and the nature of ownership to consider how the assimilation of squatting to a contemporary punitive turn is shaping the political social legal and moral landscapes of property housing and crime

Exploring the Links between Social Connections, Care and Integration Marcia Vera Espinoza, Arek Dakessian, Clayton Boeyink, 2024-10-18 Integration has in recent decades emerged as the primary policy tool through which the nations of the global north and increasingly the global south shepherd their immigrants to achieve the same social and economic outcomes as natives taking into account their characteristics OECD 2018 Despite scholarship on the importance of social connections to facilitate feelings of belonging and settlement lack of consensus around what integration means has led to bustling critique of the notion as prescribing processes through which migrant others must work their way into acceptance in the body social Moreover scholars recognise that discourses and practices of integration are often used as means to justify accompanying policies of disintegration and exclusion Put differently there is a humanitarian hand that cares and a hand that strikes Frameworks for understanding migration and integration traverse the realms of theory policy and practice and are usually intertwined with discourses and regimes of care and connectedness This Research Topic aims to further unsettle debates around integration and care through an engagement with the value commitments that underlie integration projects
