

**The Risk of a Lifetime How When and Why  
Procreation May Be Permissible 1st Edition Rivka  
Weinberg**

# Online Risk Lifetime When Procreation Permissible

**Jane Coad, Melvyn Dunstall**

## **Online Risk Lifetime When Procreation Permissible:**

The Risk of a Lifetime Rivka Weinberg, 2017 This original comprehensive theory of procreative ethics explains what kind of act procreation is and when we may permissibly engage in it In order to ascertain when the procreative risk is permissible to impose Weinberg proposes contractualist principles to fairly attend to the interests prospective parents have in procreating and the interests future people have in a life of human flourishing The book presents a solution to the non identity problem as well as dilemmas regarding our liberal principles of autonomy consent and equality which may seem to be in tension with our procreative practices      *Being Born* Alison Stone, 2019-09-26 All human beings are born and all human beings die In these two ways we are finite our lives begin and our lives come to an end Historically philosophers have concentrated attention on our mortality and comparatively little has been said about being born and how it shapes our existence Alison Stone sets out to overcome this oversight by providing a systematic philosophical account of how being born shapes our condition as human beings Drawing on both feminist philosophy and existentialist concerns about the structure of meaningful human existence Stone offers an original perspective on human existence She explores how human existence is shaped by the way that we are born Taking natality into account transforms our view of human existence and illuminates how many of its aspects are connected with our birth These aspects include dependency the relationality of the self vulnerability reception and inheritance of culture and history embeddedness in social power situatedness and radical contingency Considering natality also sheds new light on anxiety mortality and the temporality of human life This book therefore bears on death and the meaning of life as well as many debates in feminist and continental philosophy      *Family Values and Social Justice* Andrée-Anne Cormier, Christine Sypnowich, 2020-04-28 In making the argument for the remedy of inequality contemporary political philosophers often emphasize the arbitrariness of disadvantage stressing how one's lot in life is to a significant extent determined by the circumstances of one's birth that is in which family and in what part of the world In the latter instance people differ in how well they live in a large part because of their context in the global order But equally important for a person's chances in life is the family that raises her if the person is lucky enough to have a family in the first place In *Family Values* the Ethics of Parent Child Relationships Harry Brighouse and Adam Swift provide a systematic analysis of the morality and politics of the family exploring why families are valuable whether people have a right to parent what rights and duties parents have and in particular what rights children have that may constrain the rights of their parents The essays in this volume assess Brighouse and Swift's contribution taking up a number of controversial issues about autonomy human flourishing parental rights and indeed the nature of childhood itself Contributors offer a range of arguments some challenging others complementing of Brighouse and Swift's account of the ethics of parent child relationships The chapters in this book were originally published in a special issue in the *Critical Review of International Social and Political Philosophy*      *Citizen Science in the Digital Age* James Wynn, 2017-01-10 James Wynn's timely

investigation highlights scientific studies grounded in publicly gathered data and probes the rhetoric these studies employ. Many of these endeavors such as the widely used SETI home project simply draw on the processing power of participants' home computers; others like the protein folding game FoldIt ask users to take a more active role in solving scientific problems. In *Citizen Science in the Digital Age*, Rhetoric Science and Public Engagement Wynn analyzes the discourse that enables these scientific ventures as well as the difficulties that arise in communication between scientists and lay people and the potential for misuse of publicly gathered data.

**Anatomy and Physiology for Midwives, with Pageburst online access,** 3rd ed. Jane Coad, Melvyn Dunstall, 2011-01-01. Printed book plus PageburstT access. You will receive a printed book and access to the complete book content electronically. PageburstT enhances learning not only by bringing world class content to your fingertips but also by letting you add to it, annotate it, and categorize it in a way that suits you. PageburstT frees you to spend more time learning and less time searching. *Anatomy Physiology for Midwives* 3rd edition builds on the success of the first two editions with electronic ancillaries, more accessible woman-centred language, and strengthened links with good practice. The book provides a thorough review of anatomy and physiology applicable to midwifery from first principles through to current research, utilizing case studies for reflection. A comprehensive and well-illustrated textbook that is an essential purchase for all students of midwifery.

*Primary Care - E-Book* Terry Mahan Buttaro, Patricia Polgar-Bailey, Joanne Sandberg-Cook, Karen L. Dick, Justin B. Montgomery, 2024-03-02. Selected for Doody's Core Titles 2024 in Advanced Practice. There's no better preparation for Nurse Practitioners and other adult primary care practitioners. Buttaro's *Primary Care Interprofessional Collaborative Practice* 7th Edition provides the concise yet thorough information that you need in today's fast-paced interprofessional collaborative environment. With authorship reflecting both academic and clinical expertise, this comprehensive evidence-based primary care text reference shows you how to deliver effective, truly interdisciplinary health care. It covers every major adult disorder seen in the outpatient office setting and features a unique interprofessional collaborative approach with referral and Red Flag highlights and more. New to this edition are chapters on health equity, public health preparedness, endocannabinoids, and self-care. Comprehensive evidence-based, accurate, and current content provides a complete foundation in the primary care of adults for NP students, including students in Doctor of Nursing Practice (DNP) programs, and reflects the latest research and national and international guidelines. UNIQUE Interprofessional collaborative approach equips you for interprofessional collaborative practice in the contemporary healthcare environment. Consistent chapter format and features reflect the systematic approach used in adult primary care practice to promote improved clinical judgment skills, facilitate learning, and foster quick clinical reference. UNIQUE Referral Consultation highlights indicate when the NP should collaborate with or refer to other providers. UNIQUE Emergency Referral highlights indicate when the NP should refer the patient for urgent emergent care. UNIQUE Red Flag highlights indicate issues not to be missed. UNIQUE Initial Diagnostics boxes provide quick reference to key decision-making content.

**T: The Story of**

**Testosterone, the Hormone that Dominates and Divides Us** Carole Hooven, 2021-07-13 Through riveting personal stories and the latest research Harvard evolutionary biologist Carole Hooven shows how testosterone drives the behavior of the sexes apart and how understanding the science behind this hormone is empowering for all Since antiquity from the eunuchs in the royal courts of ancient China to the booming market for elixirs of youth in nineteenth century Europe humans have understood that typically masculine behavior depends on testicles the main source of testosterone in males Which sex has the highest rates of physical violence hunger for status and desire for a high number of sex partners Just follow the testosterone Although we humans can study and reflect on our own behavior we are also animals the products of millions of years of evolution Fascinating research on creatures from chimpanzees to spiny lizards shows how high testosterone helps males out reproduce their competitors And men are no exception While most people agree that sex differences in human behavior exist they disagree about the reasons But the science is clear testosterone is a potent force in human society driving the bodies and behavior of the sexes apart But as Hooven shows in T it does so in concert with genes and culture to produce a vast variety of male and female behavior And crucially the fact that many sex differences are grounded in biology provides no support for restrictive gender norms or patriarchal values In understanding testosterone we better understand ourselves and one another and how we might build a fairer safer society

**The Oxford Handbook of Publishing** Angus Phillips, Michael Bhaskar, 2019 The Oxford Handbook of Publishing marks the coming of age of the scholarship in publishing studies with a comprehensive exploration of current research on subjects such as copyright corporate social responsibility globalizing markets and changing technology that have transformed the industry in recent years

**Federal Register**, 1999-07-02 *Bulletin of the Atomic Scientists*, 1958-01 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world

Popular Science, 2005-09 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better

**Bulletin of the Atomic Scientists**, 1970-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world

Distributed Network Systems Weijia Jia, Wanlei Zhou, 2004-12-15 Both authors have taught the course of Distributed Systems for many years in the respective schools During the teaching we feel strongly that Distributed systems have evolved from traditional LAN based distributed systems towards Internet based systems Although there exist many excellent textbooks on this topic because of the fast development of distributed systems and network programming protocols we have difficulty in finding an appropriate textbook for the course of distributed systems with orientation to the requirement of the undergraduate level study for today's distributed technology

Specifically from to date concepts algorithms and models to implementations for both distributed system designs and application programming Thus the philosophy behind this book is to integrate the concepts algorithm designs and implementations of distributed systems based on network programming After using several materials of other textbooks and research books we found that many texts treat the distributed systems with separation of concepts algorithm design and network programming and it is very difficult for students to map the concepts of distributed systems to the algorithm design prototyping and implementations This book intends to enable readers especially postgraduates and senior undergraduate level to study up to date concepts algorithms and network programming skills for building modern distributed systems It enables students not only to master the concepts of distributed network system but also to readily use the material introduced into implementation practices

**Intermedia** ,1998 *Backpacker* ,2007-09 Backpacker brings the outdoors straight to the reader s doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world s first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker s Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured

**The American Naturalist** ,2003 **The Risk of a Lifetime** Rivka Weinberg,2016 This original comprehensive theory of procreative ethics explains what kind of act procreation is and when we may permissibly engage in it In order to ascertain when the procreative risk is permissible to impose Weinberg proposes contractualist principles to fairly attend to the interests prospective parents have in procreating and the interests future people have in a life of human flourishing The book presents a solution to the non identity problem as well as dilemmas regarding our liberal principles of autonomy consent and equality which may seem to be in tension with our procreative practices
