Smart Home Systems Mahmoud Al-Qutayri,2010-02-01 Smart homes are intelligent environments that interact dynamically and respond readily in an adaptive manner to the needs of the occupants and changes in the ambient conditions The realization of systems that support the smart homes concept requires integration of technologies from different fields Among the challenges that the designers face is to make all the components of the system interact in a seamless reliable and secure manner Another major challenge is to design the smart home in a way that takes into account the way humans live and interact This later aspect requires input from the humanities and social sciences fields The need for input from diverse fields of knowledge reflects the multidisciplinary nature of the research and development effort required to realize smart homes that are acceptable to the general public The applications that can be supported by a smart home are very wide and their degree of sophistication depends on the underlying technology used Some of the application areas include monitoring and control of appliances security telemedicine entertainment location based services care for children and the elderly etc This book consists of eleven chapters that cover various aspects of smart home systems

Inside the Smart Home Richard Harper,2006-04-18 Using clear and accessible language this book examines the growing field of smart technology for the home The author first introduces the field before exploring the various background issues including how the home differs from other environments He then shows how these background issues affect the design and usability of these technologies A detailed case study looks at the use of handheld and wearable digital technology in sheltered housing The last section examines what it is like to live in a smart home and why they have so far failed to reach the levels of success originally predicted Invaluable reading for anybody interested in designing smart technologies for the home

Modelling, simulation and performance evaluation of wired smart home technology controlled by wireless mobile device Dileep Keshava Narayana, Modelling simulation and performance evaluation of wired smart home technology controlled by wireless mobile device Research Paper University of Greenwich London United Kingdom 2012
