Dreams Achieved and Denied Robert Courtney Smith,2024-08-01 U S born Mexicans in New York City have achieved perhaps the biggest single generation jump in mobility in American immigration history In 2020 42 percent of second generation U S born Mexican men and 49 percent of U S born Mexican women in New York City had graduated from college versus a 13 14 percent second generation college graduation rate for most places for most studies done in recent decades How did U S born Mexicans in New York City achieve such remarkable mobility In Dreams Achieved and Denied sociologist Robert Courtney Smith examines the laws policies and individual and family practices that promoted and inhibited

their social mobility For over twenty years Smith followed the lives and mobility of nearly one hundred children of Mexican immigrants in New York City Smith's longitudinal ethnographic data enabled him to intimately describe how specific mechanisms blocked or promoted mobility for years as his participants moved from adolescence through early adulthood and into established adulthood Smith documents how having or gaining legal status made certain New York City or New York State policies and practices more efficacious in supporting individual and family efforts and strategies for mobility Such immigrant inclusive and mobility promoting measures include enabling undocumented people to attend public colleges at in state tuition rates and later to get driver's licenses offering healthcare to all in New York City and the City's subway and school choice systems which enabled students to attend better schools or take opportunities outside their neighborhoods Smith finds that keeping the immigrant bargain whereby children of immigrants redeem their parents' sacrifice by doing well in school helping their parents and siblings and becoming good people in their parents' words helped them towards better adult outcomes and lives Having mentors picking academically stronger schools and friends and using second chance mechanisms also promoted more adult mobility However lacking legal status blocked mobility by preventing them from benefiting from these same mobility promoting city and state policies from mentors or from working hard and keeping the immigrant bargain Dreams Achieved and Denied deeply analyzes the historic upward mobility of U.S. born Mexicans in New York City It counters the dominant story research and public discourse tell about Mexican mobility in the U.S. and shows how thoughtful public policy can improve the lives of young immigrants and families

Dreams and Dreaming in the Roman Empire Juliette Harrison, 2013-07-04 The history and literature of the Roman Empire is full of reports of dream prophecies dream ghosts and dream gods This volume offers a fresh approach to the study of ancient dreams by asking not what the ancients dreamed or how they experienced dreaming but why the Romans considered dreams to be important and worthy of recording Dream reports from historical and imaginative literature from the high point of the Roman Empire the first two centuries AD are analysed as objects of cultural memory records of events of cultural significance that contribute to the formation of a group's cultural identity The book also introduces the term cultural imagination as a tool for thinking about ancient myth and religion and avoiding the question of belief which arises mainly from creed based religions The book's conclusion compares dream reports in the Classical world with modern attitudes towards dreams and dreaming identifying distinctive features of both the world of the Romans and our own culture
