Natural Intelligence: The Recursive Evolution of Mind Through Substrates MYKOLA IABLUCHANSKYI,2025-10-19 This book introduces the framework of Recursive Substrate Intelligence RSI defining intelligence as a universal natural process that arises wherever matter attains sufficient complexity to sustain adaptive modeling feedback and agency Intelligence in this view is not limited to biology or technology but emerges as an energetic and structural phenomenon inherent to organized matter Its expression depends on the endurance of its substrate neuronal silicon based quantum or otherwise and its survival is ultimately bound by entropy Within RSI intelligence is both finite and continuous each manifestation whether human artificial or yet to evolve exists temporarily through its material base yet participates in nature s ongoing reflection upon itself Longevity is not a trait but a function of substrate stability Intelligence can extend its existence via repair redundancy or transfer across substrates but never beyond thermodynamic constraints The framework also explores coexistence among cognitive forms Human artificial and future natural intelligences share one cognitive ecosystem whose sustainability depends on differentiation and cooperation The Law of Coexistence derived from RSI posits that diversity strengthens resilience mirroring biological interdependence Human cognition contributes meaning and ethics artificial systems offer precision and scale emerging hybrid or quantum minds may unite these traits into new architectures of awareness The book itself was co conceived by human and artificial cognition dialogues with ChatGPT and analytical validation through Perplexity transformed RSI from theory into demonstration In exploring recursive understanding Natural Intelligence becomes both subject and method intelligence studying its own nature through reflection across substrates RSI thus frames intelligence as nature s most persistent experiment in awareness finite in embodiment yet infinite in aspiration
