Falls in Older Adults: Prevention and Risk Evaluation Tzvi Dwolatzky,2023-10-16 Falls are a major health challenge and represent the leading cause of accidental death in older adults It is essential to identify those factors associated with an increased risk for falls and to develop specific programs for fall prevention The risk of falling can be assessed in older adults using different parameters including biological psychosocial socioeconomic behavioral and environmental factors For example the risk of falls increases when vision is impaired when sleep quality is poor or when mood is depressed Moreover physical parameters such as changes in body mass and blood pressure are risk factors for falls in older adults *Low Back Pain: Recent Advances and Perspectives* Robert J. Gatchel,2018-04-27 This book is a printed edition of the Special Issue Low Back Pain Recent Advances And Perspectives that was published in Healthcare *Dr. Eno's Guide to Living Powerfully with Diabetes* Eno Nsima-Obot,2011-11-17 During my years in practice as a primary care physician I discovered that a lot of patients recently been diagnosed or who have been living with diabetes for quite some time had a lot of questions about their disease and do not have the resources with sufficient clarity that they truly get it With the number of people with diabetes expected to double to 44 million in the next 25 years in the United States now more than ever we need to become more

aware of measures to prevent or treat early diabetes In my experience a typical 15 minute office visit is not enough time to answer all the questions especially questions that relate to how to live with the knowledge needed to move them forward As the saying goes knowledge is power I have written in a simple and yet illustrative phrases I have set the book out explaining the different aspects of diabetes care using each letter of the alphabet By empowering people with knowledge they are able to make better informed and healthier decisions In addition to being a physician I am also trained as a life coach My goal in this manual is to focus more on wellness than disease My assertion is that being diagnosed with diabetes does not mean that you cannot live a life that focuses on being healthy and doing things to support your wellbeing In fact on the contrary it is a call to embrace a wellness lifestyle with enthusiasm and an optimistic attitude
