

1000

A Typical Year in the NFL

The featured football league, commonly known as the NFL, is the United States' top level American football competition. The league has thirty-two teams and its schedule makes time to fit in two hundred and seventy-two games into very regular seasons. Some of these matchups are now also played in other parts of the world, such as Mexico, the United Kingdom, Germany and South America. In order to keep the league running smoothly, games and events take place throughout the year.

100

Every year, a total process begins in September and ends the fall meeting.

Planning for this year's month's action information is collected by schedule makers as early as the spring to help guide our marketing efforts and locations.

100

Thousands of computers are used to make different weather calculations before one is picked that works the best.

Throughout the regular season, each team will play numerous games, most of them take place on Tuesday afternoons. Every 9th team will have one "bye week" (when they don't play a game) inserted in their schedule so players can rest and coaches can receive feedback.

10

In January, the regular season reaches its end and is followed by the postseason, when the best teams take part in playoff and championship games. However, the league's highlight and its final game is Super Bowl, which usually takes place in February.
