realise a creative city with a small c *OECD Environmental Performance Reviews: Austria 2013* OECD,2013-11-06 This report is the third OECD review of Austria's environmental performance The report evaluates Austria's progress towards sustainable development and green growth with a focus on chemicals management and climate change adaptation

building works too much to want to upgrade their property or cheaper sources of finance might be available from other sources If take up levels are low it will be important to understand why this is so that the policy can be improved The report calls on the Government to publish information showing how well the Green Deal is progressing The Committee also says that DECC should seek opportunities to collaborate with research organisations to maximise its understanding of whether the scheme is working well
