new edition *Analysing Architecture* has been revised and expanded. Notably the chapter on How Analysis Can Help Design has been redeveloped to clearly explain this crucially important aspect of study to a beginner readership. Four new chapters have been added to the section dealing with Themes in Spatial Organisation on Axis Grid Datum Place and Hidden Material from the Case Studies in previous editions has been redistributed amongst earlier chapters. The Introduction has been completely rewritten and the format of the whole book has been adjusted to allow for the inclusion of more and better illustrative examples. Works of architecture are instruments for managing orchestrating modifying our relationship with the world around us. They frame just about everything we do. Architecture is complex subtle frustrating but ultimately extremely rewarding. It can be a difficult discipline to get to grips with nothing in school quite prepares anyone for the particular demands of an architecture course. But this book will help. www.instagram.com/analysingarchitecture
