Frank,2009-11-10 The Economic Naturalist is back with a whole batch of intriguing new questions and answers drawn from his New York Times columns that reveal how we really behave when confronted with economic choices Do tax cuts for business owners really stimulate employment Why shouldn t we just leave everything to the market And why do we all save so little Discover the answers to these and many more questions With his trademark plain speaking wit and insight Robert Frank shows through dozens of examples how our personal choices about everything from paying for food and housing to large scale policy decisions about taxation and the regulation of markets all boil down to the same simple economic principles often resulting in the same wasteful mistakes He shows that while our desires may be boundless the resources necessary to satisfy them remain limited and argues that choices are always best made pragmatically by carefully weighing the costs and benefits of competing options This is a fascinating entertaining and revealing collection full of insights that have more bearing than ever on our bank balances and our personal happiness      Valuing Diversity Peter D.

Hershock,2012-12-06 Diversity matters Whether in the context of ecosystems education the workplace or politics diversity is now recognized as a fact and as something to be positively affirmed But what is the value of diversity What explains its increasing significance Valuing Diversity is a groundbreaking response to these questions and to the contemporary global dynamics that make them so salient Peter D Hershock examines the changes of the last century to show how the successes of Western style modernity and industrially powered markets have ironically coupled progressive integration and interdependence with the proliferation of political economic social cultural and environmental differences Global predicaments like climate change and persistent wealth inequalities compel recognition that we are in the midst of an era defining shift from the primacy of the technical to that of the ethical Yet neither modern liberalism nor its postmodern critiques have offered the resources needed to address such challenges Making use of Buddhist and ecological insights Valuing Diversity develops a qualitatively rich conception of diversity as an emerging value and global relational commons forwarding an ethics of interdependence and responsive virtuosity that opens prospects for a paradigm shift in our pursuits of equity freedom and democratic justice      *Coming Soon* Keith M.
