considerable growth in the last 30 years But virtually none of this growth has trickled down to the average American Incomes
have been flat since 1985 Inequality has grown and social mobility has dropped dramatically Equally troubling these policies
have been devastating to both American productivity and our long term competitiveness Many reasons for these failures have
been proposed Globalization Union greed Outsourcing But none of these explanations can address the harsh truth that many
countries around the world are dramatically outperforming the U S in delivering broad middle class prosperity And this is
despite the fact that these countries are more exposed than America to outsourcing and globalization and have much higher
levels of union membership In *What Went Wrong* George R Tyler a veteran of the World Bank and the Treasury Department
takes the reader through an objective and data rich examination of the American experience over the last 30 years He
provides a fascinating comparison between the America and the experience of the family capitalism countries Australia
Austria Belgium Denmark France Germany the Netherlands and Sweden Over the last 30 years they have outperformed the
U S economy by the only metric that really matters delivering better lives for their citizens The policies adopted by the family
capitalist countries aren't socialist or foreign They are the same policies that made the U S economy of the 1950s and 1960s
the strongest in the world *What Went Wrong* describes exactly what went wrong with the American economy how countries
around the world have avoided these problems and what we need to do to get back on the right track **Check List of the
