Twitterbots Tony Veale, Mike Cook, 2018-09-11 The world of Twitterbots from botdom's greatest hits to bot construction to the place of the bot in the social media universe Twitter offers a unique medium for creativity and curiosity for humans and machines The tweets of Twitterbots autonomous software systems that send messages of their own composition into the Twittersphere mingle with the tweets of human creators the next person to follow you on Twitter or to like your tweets may not a person at all The next generator of content that you follow on Twitter may also be a bot This book examines the world of Twitterbots from botdom's greatest hits to the hows and whys of bot building to the place of bots in the social media landscape In Twitterbots Tony Veale and Mike Cook examine not only the technical challenges of bending the affordances of Twitter to the implementation of your own Twitterbots but also the greater knowledge engineering challenge of building bots that can craft witty provocative and concise outputs of their own Veale and Cook offer a guided tour of some of Twitter's most notable bots from the deadpan `big_ben_clock` which tweets a series of BONGs every hour to mark the time to the delightful pentametrone which finds and pairs tweets that can be read in iambic pentameter to the disaster of Microsoft's TayAndYou which learned conspiracy theories racism and extreme politics from other tweets They explain how to navigate Twitter's software interfaces to program your own Twitterbots in Java keeping the technical details to a minimum and focusing on the creative implications of bots and their generative worlds Every Twitterbot they argue is a thought experiment given digital form each embodies a hypothesis about the nature of meaning making and creativity that encourages its followers to become willing test subjects and eager consumers of automated creation Some bots are as malevolent as their authors Like the bot in this book by Veale Cook that uses your internet connection to look for opportunities to buy plutonium on The Dark Web PROSECCOnetwork If writing is like cooking then this new book about Twitter bots is like Apple Charlotte made with whale blubber instead of butter PROSECCOnetwork These bot critiques generated at <https://cheapbotsdonequick.com> source PROSECCOnetwork

Critical Femininities Rhea Ashley Hoskin, Karen L. Blair, 2022-11-10 What would change about our existing world if we reimagined and revalued femininity Critical Femininities presents a multidimensional framework for rethinking femininity Moving beyond seeing femininity as a patriarchal tool this book considers the social historical and ideological forces that shape present day norms surrounding femininity particularly those that contribute to femmephobia the systematic devaluation and regulation of all that is deemed feminine Each chapter offers a unique application of the Critical Femininities framework to disparate areas of inquiry ranging from breastfeeding stigma to incel ideology and attempts to answer pressing questions concerning the place of femininity within gender and social theory How can we conceptualise feminine power In what ways can vulnerability act as a powerful mode of resistance How can we understand femininity as powerful without succumbing to masculinist frameworks What ideological underpinnings maintain Critical Femininities as an emergent field despite traceable origins pre dating second wave feminism As the provocative

entries within this volume will certainly generate additional questions for anyone invested in society's treatment of femininity this book offers a launching pad for the continued growth of a field that cultivates insight from a feminine frame of reference as a means of rendering visible the taken for granted presence of masculinity that remains pervasive within gender theory

The Innovation Complex Sharon Zukin,2020-02-03 You hear a lot these days about innovation and entrepreneurship and about how good jobs in tech will save our cities Yet these common tropes hide a stunning reality local lives and fortunes are tied to global capital You see this clearly in metropolises such as San Francisco and New York that have emerged as superstar cities In these cities startups bloom jobs of the future multiply and a meritocracy trained in digital technology backed by investors who control deep pools of capital forms a new class the tech financial elite In The Innovation Complex

the eminent urbanist Sharon Zukin shows the way these forces shape the new urban economy through a rich and illuminating account of the rise of the tech sector in New York City Drawing from original interviews with venture capitalists tech evangelists and economic development officials she shows how the ecosystem forms and reshapes the city from the ground up Zukin explores the people and plans that have literally rooted digital technology in the city That in turn has shaped a workforce molded a mindset and generated an archipelago of tech spaces which in combination have produced a now hegemonic innovation culture and geography She begins with the subculture of hackathons and meetups introduces startup founders and venture capitalists and explores the transformation of the Brooklyn waterfront from industrial wasteland to innovation coastline She shows how far beyond Silicon Valley cities like New York are shaped by an influential triple helix of business government and university leaders an alliance that joins C Wright Mills s power elite real estate developers and ambitious avatars of academic capitalism As a result cities around the world are caught between the demands of the tech economy and communities desires for growth a massive and often insurmountable challenge for those who hope to reap the rewards of innovation s success

On Being Unreasonable Kirsty Sedgman, 2023-02-14 Manners order and respect these are all ideals we subscribe to In opposed positions we ought to be able to agree to disagree Today s world is built from structures of standards and reason but it is imperative to ask who constructed these norms and why We are more divided than ever before along lines of race gender class disability and it s time to question who benefits the most What if our propensity to measure human behaviour against rules and reason is actually more problematic than it might seem Kirsty Sedgman shows how power dynamics and the social biases involved have resulted in a wide acceptance of what people should and shouldn t do but they create discriminatory realities and amount to a societal fa ade that is dangerous for genuine social progress From taking the knee to breastfeeding in public from neighbourhood vigilantism to the Colston Four and exploring ideas around ethics justice society and equality along the way Sedgman explores notions of civility throughout

history up to now *On Being Unreasonable* mounts a vital and spirited defence of why and how being unreasonable can help improve the world It examines and parses the pros and cons of our rules around reason but leaves us with the rousing question What if behaving unreasonably at times might be the best way to bring about meaningful change that is long overdue

Imagining Transmedia Ed Finn,Bob Beard,Joey Eschrich,Ruth Wylie,2024-04-23 How the blurring of media forms transmedia became the default for how we experience narratives and how that cultural transformation has redefined the worlds of education entertainment and our increasingly polarized public discourse Over the past decade the power of narrative has been unleashed with awesome and terrifying consequences and it has been consumed in its blurred media forms by millions of people as news entertainment and education *Imagining Transmedia* edited by Ed Finn Bob Beard Joey Eschrich and Ruth Wylie explores the surprising ways that narratives working across media forms became the default grammar for both media consumption and personal expression and how multiplatform storytelling creates new media literacies and modes of civil discourse Understanding this shift reveals transmedia as an essential building block of media literacy today Transmedia is how we create interpret and participate in our increasingly mediated society It extends beyond popular culture into professional and public spheres while at the same time it fuels the misinformation and polarization that have contributed to America s fraying civic discourse Reaching beyond traditional academic analyses this probing collection of essays and conversations features transmedia practitioners sharing their experiences and inviting readers to imagine the types of multimodal stories and experiences they might create Prioritizing conversation over a single unified theory each section of this volume pairs thematically linked essays from international contributors with a dialogue between authors to create an accessible practical synthesis of ideas
