War for Your Worldview Timothy Wade Corder,2019-06-07 War for Your Worldview is based on the insights gained through twenty years of the author s intense investigative research Although a great deal has been written in recent years about globalism and the infamous New World Order much of it provides only scant evidence along with endless conjecture requiring readers to take giant leaps of faith This book however is different Corder disregards folklore and presents only the shocking incontrovertible evidence that proves the existence of the Deep State showcases the corruption that controls our news and entertainment media and exposes the elite cabal s insidious century long plot to undermine the founding principles of The United States of America Every citizen should be aware of the facts related to how our education system and our media sources have been hijacked to dumb down our population how the climate change narrative has been forced into our collective consciousness to guilt and shame us into bankruptcy and how our jobs and industries have been outsourced to destroy our economic well being Corder reviews the work of several credentialed whistle blowers who have blown the doors off of the covert operations intended to erode our values and ultimately topple our

civilization He also demonstrates how social engineers have used our most noble qualities against us in their effort to bring about our destruction The key players are identified by name and concrete examples are provided of their undeniably sinister intentions and egregious acts against our Republic Learn how divisive rhetoric and emotionally charged propaganda are presenting direct threats to our civil liberties and how blatant attacks on patriotism Christianity and the US Constitution are erasing our national identity Discover how deadly drugs mass immigration and socialist policies are all being promoted to weaken us as a nation to destroy our people by bringing chaos and disorder to our lives and our communities You won't get these explosive truths from the mainstream media or anywhere else There's a war being fought for our collective worldview The weaponry that's being employed against us is the manipulation of our minds The stakes are high The attacks are real The casualties are real Know how to fight back for freedom for liberty and for the way of life that we all cherish as Americans

Making the Internet Safe for Kids United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Oversight and Investigations, 2006 Parliamentary America Maxwell L. Stearns, 2024-03-05 This work identifies our two party comparatively non representative form of democracy as the main culprit of why American politics are so dysfunctional and shows us how to fix it *The Short Life and Curious Death of Free Speech in America* Ellis Cose, 2020-09-15 Named one of Newsweek's 25 Must Read Fall Fiction and Nonfiction Books to Escape the Chaos of 2020 The critically acclaimed journalist and bestselling author of *The Rage of a Privileged Class* explores one of the most essential rights in America free speech and reveals how it is crumbling under the combined weight of polarization technology money and systematized lying in this concise yet powerful and timely book Free speech has long been one of American's most revered freedoms Yet now more than ever free speech is reshaping America's social and political landscape even as it is coming under attack Bestselling author and critically acclaimed journalist Ellis Cose wades into the debate to reveal how this Constitutional right has been coopted by the wealthy and politically corrupt It is no coincidence that historically huge disparities in income have occurred at times when moneyed interests increasingly control political dialogue Over the past four years Donald Trump's accusations of fake news the free use of negative language against minority groups cancel culture and blatant xenophobia have caused Americans to question how far First Amendment protections can and should go Cose offers an eye opening wholly original examination of the state of free speech in America today litigating ideas that touch on every American's life Social media meant to bring us closer has become a widespread disseminator of false information keeping people of differing opinions and political parties at odds The nation and world watches in shock as white nationalism rises race and gender based violence spreads and voter suppression widens The problem Cose makes clear is that ordinary individuals have virtually no voice at all He looks at the danger of hyper partisanship and how the discriminatory structures that determine representation in the Senate and the electoral college threaten the very concept of democracy He argues that the safeguards built into the Constitution to protect free speech and democracy have instead become instruments of suppression by an

unfairly empowered political minority But we can take our rights back he reminds us Analyzing the experiences of other countries weaving landmark court cases together with a critical look at contemporary applications and invoking the lessons of history including the Great Migration Cose sheds much needed light on this cornerstone of American culture and offers a clarion call for activism and change
