Character Limit Kate Conger,Ryan Mac,2024-09-17 Named a Best Book of the Year by Kirkus Reviews Riveting Character Limit offers a telling lesson in the cost of getting everything you want The Washington Post You couldn t hope for a better ringside seat on the unfolding drama Character Limit is a triumph The Guardian Masterful in how it paints a picture and puts you in the room with the famous entrepreneur Character Limit is a page turner Forbes Rising star New York Times technology reporters Kate Conger and Ryan Mac tell for the first time the full and shocking inside story of Elon Musk s unprecedented takeover of Twitter and the forty four billion dollar deal s seismic political social and financial fallout The billionaire entrepreneur and Tesla CEO Elon Musk has become inextricable from the social media platform that until 2023 was known as Twitter Started in the mid 2000s as a playful microblogging platform Twitter quickly became a vital nexus of global politics culture and media where the retweet button could instantly catapult any idea to hundreds of millions of

screens around the world unleashing raw collective emotion like nothing else before While its founder had idealistically dreamed of building a digital town square he detested Wall Street and never focused on building a profitable business Musk joined the platform in 2010 and by 2022 had become one of the site s most influential users hooking over 80 million followers with a mix of provocations promotion of his companies and attacks on his enemies To Musk Twitter once known for its almost absolute commitment to free speech had badly lost its way He blamed it for the proliferation of what he called the woke mind virus and claimed that the survival of democracy and the human race itself depended on the future of the site In January of 2022 Musk began secretly accumulating Twitter stock By April he was its largest shareholder and soon after made an unsolicited offer to purchase the company for the unimaginable sum of 44 billion dollars Backed into a corner Twitter s board accepted his offer but Musk quickly changed his mind forcing Twitter to sue him to close the deal in October The richest man on earth controlled one of the most powerful media platforms in the world but at what price Before long Twitter would be gone for good replaced by something radically different as Musk remade the company in his own image from the ground up The story of the showdown between Musk and Twitter and his eventual takeover of the company is unlike anything in business or media that has come before In vivid cinematic detail Conger and Mac follow the inner workings of the company as Musk lays siege to it first from the outside as one of its most vocal users and then finally from within as a contentious and mercurial leader Musk has shared some of his version of events but Conger and Mac have uncovered the full story through exclusive interviews unreported documents and internal recordings at Twitter following the billionaire s takeover With unparalleled sources from within and around the company they provide a revelatory three dimensional and definitive account of what really happened when Musk showed up spoiling for a brawl and intent on revolution with his merciless sycophantic cadre of lawyers investors and bankers This is the defining story of our time told with uncommon style and peerless rigor In a world of viral ideas and emotion who gets to control the narrative who gets to be heard and what does power really cost

The Animals Among Us John Bradshaw,2017-09-28 A pioneering study richly empathetically and affectionately respectful of the human animal bond Sunday Times Why do humans love animals The bestselling author of In Defence of Dogs and Cat Sense gives us the answers Keeping pets is expensive time consuming and seemingly irrational so why do so many of us have an animal in our lives Modern day pet keeping has been justified for many reasons from the potential therapeutic role pets can play to their appealing cuteness But pet keeping is much more than just a simple pastime It is part of the broader history of humanity s relationship with animals a relationship that comes from deep within our nature As John Bradshaw reveals in this highly original new work our connection with animals is one of the very things that makes us human In The Animals Among Us Bradshaw takes us to the heart of Anthrozoology a new science

dedicated to discovering the true nature and depth of the human animal bond Following the thread of our affection for animals from today s pet lovers all the way back to our ancient ancestors Bradshaw reveals how animals have always been an integral part of our lives indeed they have shaped the evolution of our minds and our bodies The ways in which we relate to animals today stem ultimately from our evolutionary journey from hominid to Homo sapiens An affinity for animals drove our evolution as humans Now as increasing numbers of species are under threat John Bradshaw shows us that pet keeping can act as a bridge between the domestic and the wild even aiding conservation If we lose the animals among us he warns we risk losing an essential part of ourselves The Scent Of Murder Barbara Block,2013-10-22 Robin Light was behind the fish tanks of her Syracuse pet shop when the teenager walked in the door With her electric blue hair corpse white lipstick and in your face nose ring Amy Richmond wasn t the type you could forget But her appearance paled beside the message she had for Robin Murphy said you d help me Murphy was Robin s ex husband who d lived fast and died too young And now his 15 year old daughter Amy was in trouble recently named the prime suspect in the sensational murder of her wealthy stepfather Suddenly the inveterate sleuth finds herself moving through the edgy drug infested world into which Amy has disappeared Hitting up on her street connections Robin plugs into a secret network of strippers addicts and runaways where a low life named Toon Town appears to be calling all the shots and where Robin has to find a terrified young girl before it s too late
