Filterworld Kyle Chayka,2025-01-21 From New Yorker staff writer and author of *The Longing for Less* Kyle Chayka comes a timely history and investigation of a world ruled by algorithms which determine the shape of culture itself From trendy restaurants to city grids to TikTok and Netflix feeds the world round algorithmic recommendations dictate our experiences and choices The algorithm is present in the familiar neon signs and exposed brick of Internet cafes be it in Nairobi or Portland and the skeletal modern furniture of Airbnbs in cities big and small Over the last decade this network of mathematically determined decisions has taken over almost unnoticed informing the songs we listen to the friends with whom we stay in touch as we ve grown increasingly accustomed to our insipid new normal This ever tightening web woven by algorithms is called *Filterworld* Kyle Chayka shows us how

online and offline spaces alike have been engineered for seamless consumption becoming a source of pervasive anxiety in the process Users of technology have been forced to contend with data driven equations that try to anticipate their desires and often get them wrong What results is a state of docility that allows tech companies to curtail human experiences human lives for profit But to have our tastes behaviors and emotions governed by computers while convenient does nothing short of call the very notion of free will into question In Filterworld Chayka traces this creeping machine guided curation as it infiltrates the furthest reaches of our digital physical and psychological spaces With algorithms increasingly influencing not just what culture we consume but what culture is produced urgent questions arise What happens when shareability supersedes messiness innovation and creativity the qualities that make us human What does it mean to make a choice when the options have been so carefully arranged for us Is personal freedom possible on the Internet To the last question Filterworld argues yes but to escape Filterworld and even transcend it we must first understand it **The Shaadi Set-Up** Lillie

The American Mirage Eunji Kim,2025-05-06 How the entertainment narrative of upward mobility distorts the harsh economic realities in America In an age of growing wealth disparities politicians on both sides of the aisle are sounding the alarm about the fading American Dream Yet despite all evidence to the contrary many still view the United States as the land of opportunity The American Mirage addresses this puzzle by exposing the stark reality of today s media landscape revealing how popular entertainment media shapes politics and public opinion in an increasingly news avoiding nation Drawing on an eclectic array of original data Eunji Kim demonstrates how amid a dazzling array of media choices many Americans simply are not consuming the news Instead millions flock to entertainment programs that showcase real life success stories such as American Idol Shark Tank and MasterChef Kim examines how shows like these leave viewers confoundingly optimistic about the prospects of upward mobility promoting a false narrative of rugged individualism and meritocracy that contradicts what is being reported in the news By taking seriously what people casually watch every day The American Mirage shows how rags to riches programs perpetuate the myth of the American Dream glorifying the economic winners fostering tolerance for income inequality and dampening support for redistributive policies that could improve people s lives
