Read the short passage and answer the questions.

The Dog and the Shadow

It happened that a Dog had got a piece of meat and was carrying it home in his mouth to eat it in peace. Now on his way home, he had to cross a plank lying across a running brook. As he crossed, he looked down and saw his own shadow reflected in the water beneath. Thinking it was another dog with another piece of meat, he made up his mind to have that also. So he made a snap at the shadow in the water, but as he opened his mouth the piece of meat fell out, dropped into the water and was never seen more.

Some scholars defended the values and methods of tradition while others argued for a break with the past and the need to rethink medieval studies in the light of a post-modern episteme. The essays in this book reflect the vigour of the debate with reference to romance studies particularly Old French. Taken collectively they argue not for a choice between two extreme positions but rather a synthesis that combines the best of both worlds. The contributors are Donald Maddox, Richard F O Gorman, William D Paden, Rupert T Pickens, Barbara N Sargent Baur, Evelyn Birge Vitz, Haijo Westra and Keith Busby.

The Web also contains a rich and dynamic collection of hyperlink information. Web page access and usage information providing sources for data mining. The amount of information on the Web is growing rapidly as well as the number of Web sites and Web pages per Web site. Consequently it has become more difficult to find relevant and useful information for Web users. Web usage mining is concerned with guiding the Web users to discover useful knowledge and supporting them for decision making. In that context predicting the needs of a Web user as she visits Web sites has gained importance. The requirement for predicting user needs in order to guide the user in a Web site and improve the usability of the Web site can be addressed by recommending pages to the user that are related to the interest of the user at that time.
