The Mormon Church and Blacks Matthew L Harris,Newell G. Bringhurst,2015-11-15 The year 1978 marked a watershed year in the history of The Church of Jesus Christ of Latter day Saints as it lifted a 126 year ban on ordaining black males for the priesthood This departure from past practice focused new attention on Brigham Young's decision to abandon Joseph Smith's more inclusive original teachings The Mormon Church and Blacks presents thirty official or authoritative Church statements on the status of African Americans in the Mormon Church Matthew L Harris and Newell G Bringhurst comment on the individual documents analyzing how they reflected uniquely Mormon characteristics and contextualizing each within the larger scope of the history of race and religion in the United States Their analyses consider how lifting the ban shifted the status of African Americans within Mormonism including the fact that African Americans once denied access to certain temple rituals considered essential for Mormon salvation could finally be considered full fledged Latter day Saints in both this world and the next Throughout Harris and Bringhurst offer an informed view of behind the scenes Church politicking before and after the ban The result is an essential resource for experts and laymen alike on a much misunderstood aspect of Mormon history and belief

Making the News Popular Anthony M Nadler, 2016-06-15 The professional judgment of gatekeepers defined the American news agenda for decades Making the News Popular examines how subsequent events brought on a post professional period that opened the door for imagining that consumer preferences should drive news production and unleashed both crisis and opportunity on journalistic institutions Anthony Nadler charts a paradigm shift from market research's reach into the editorial suite in the 1970s through contemporary experiments in collaborative filtering and social news sites like Reddit and Digg As Nadler shows the transition was and is a rocky one It also goes back much further than many experts suppose Idealized visions of demand driven news face obstacles with each iteration Furthermore the post professional philosophy fails to recognize how organizations mobilize interest in news and public life Nadler argues that this civic function of news organizations has been neglected in debates on the future of journalism Only with a critical grasp of news outlets role in stirring broad interest in democratic life he says might journalism's digital crisis push us toward building a more robust and democratic news media Wide ranging and original Making the News Popular offers a critical examination of an important and still evolving media phenomenon
