Australia's Competitiveness Michael J. Enright, Richard Petty, 2013-05-08 In this in depth overview of Australia's economy

Michael Enright and Richard Petty leading scholars on international competition look at the data behind the news reports to offer a complete view of Australia's stable and wealthy economy. The book compares Australia with other similarly sized OECD economies as well as other Asia Pacific economies and looks at fifteen international sources of data on competitiveness. It features a large scale survey on Australian companies and offers deep insight on the country's future in terms of economics and economic policy. Revealing an honest assessment of Australia's true position in the world, the book looks at how Australian businesses see themselves and offers policy positions for government and firms to make the most of Australia's unique global economic position. Backed by CPA Australia, one of the world's largest accounting bodies. Written by two global authorities on economic competitiveness. Captures the thinking of more than 6 000 business leaders both within and outside of Australia. Explains how Australia has weathered the global recession and looks at Australia's relationship with China. For business leaders and policy makers in need of an in depth look at the current and future state of Australia's economy, this book offers valuable and comprehensive information.

Doing Business 2015 World Bank, 2014-10-24 Twelfth in a series of annual reports comparing business regulation in 189 economies. Doing Business 2015 measures regulations affecting 10 areas of everyday business activity: Starting a business, Dealing with construction permits, Getting electricity, Registering property, Getting credit, Protecting minority investors, Paying taxes, Trading across borders, Enforcing contracts, Resolving insolvency, Labor market regulations. This year's report will present data for a second city for the 11 economies with more than 100 million inhabitants. These are Bangladesh, Brazil, China, India, Indonesia, Japan, Mexico, Nigeria, Pakistan, the Russian Federation, and the United States. Three of the 10 topics covered have been expanded with further plans to expand on five additional indicators in next year's report. Additionally, the Doing Business rankings are now based on the distance to the frontier measure, where each economy is evaluated based on how close their business regulations are to the best global practices. This provides a more precise view of each economy's performance and its improvement over time. The report updates all indicators as of June 1, 2014, ranks economies on their overall ease of doing business, and analyzes reforms to business regulation, identifying which economies are strengthening their business environment the most. Doing Business illustrates how reforms in business regulations are being used to analyze economic outcomes for domestic entrepreneurs and for the wider economy. It is a flagship product produced in partnership by the World Bank and IFC that garners worldwide attention on regulatory barriers to entrepreneurship. More than 60 economies have used the Doing Business indicators to shape reform agendas and monitor improvements on the ground. In addition, the Doing Business data has generated over 2 000 articles in peer reviewed academic journals since its inception.
