Wilken, 2023-11-10 Have you ever considered how mobile media change what we see hear and pay attention to or how they alter our movement through the city Over the last decade mobile media and communication technologies have become deeply integral to our perception and bodily experience of the world In Bodies and Mobile Media Ingrid Richardson and Rowan Wilken explore mobile media as a lens through which to understand how embodiment both shapes and is shaped by media experience It offers a unique approach by focusing on specific sensory affordances and body parts including the eyes ears face hands and feet to consider the uneven ratios of sensory perception at work in our engagement with mobile devices Each chapter provides rich and accessible narratives of mobile media practices interwoven with current scholarship in media studies and phenomenology with a concluding chapter that reflects on mobile media use as a synesthetic experience By interpreting theoretical insights about the relationship between the body and technology the book serves as an important work of knowledge translation This work is crucial the authors argue if we are to critically understand how our perception and experience of the world are mediated by technology This book will be of interest to students and scholars in media communication and cultural studies **Ageing with Smartphones in Urban Brazil** Marília Duque, 2022-04-21 With people

living longer all over the world ageing has been framed as a socio economic problem In Brazil older people are expected to remain healthy and autonomous while actively participating in society Based on ethnographic research in São Paulo Ageing with Smartphones in Urban Brazil shows how older people in a middle class neighbourhood conciliate these expectations with the freedom and pleasures reserved for the Third Age Work is what bonds this community together providing a sense of dignity and citizenship Smartphones have become of great importance to the residents as they search for and engage in new forms of work and hobbies Connected by a digital network they work as content curators sharing activities that fill their schedule Managing multiple WhatsApp groups is a job in itself as well as a source of solidarity and hope Friendship groups help each to download new apps search for medical information and guidance and navigate the city Together they are reinventing themselves as volunteers entrepreneurs and influencers or they are finding a new interest that gives their later life a purpose The smartphone which enables the residents to share and discuss their busy lives is also helping them and us to rethink the very representation of ageing All You Need is a Mustard Seed Renée Rizzo, 2023-10-12 Many times books on hope cover a particular topic for a particular season which is vital This book reflects on the many different seasons one

encounters on their life's journey and how to resist hopelessness that can creep up over time. This book is for those firmly rooted in the church, hurt by or on the fringe with their church, and/or God. It is also for those searching for hope again. You may be someone struggling to find a safe place to talk about your despair because you don't want anyone to know your hope is waning. Welcome to your safe space. Basically, this book is for anyone looking for their hope to be renewed. The book tackles topics like: What is eternal hope versus earthly hope? How do you have hope when you are not happy? How do you face hope when you have been waiting for what seems like a very long time? How do you have hope in the midst of obstacles, roadblocks, and fears? And how do you guard your heart when you are in a hopeful season? Rene combines bible stories, personal stories, and other practical elements she calls her hope toolbox to weave in the central theme of choosing hope no matter what. She is a firm believer that all you really need is a mustard seed's size of hope to get you through all life will throw at you. Rene is frank and vulnerable as she points to the source of hope and a roadmap to get there. *Pictures of a Gone City* Richard A.

Walker, 2018-06-01 The San Francisco Bay Area is currently the jewel in the crown of capitalism, the tech capital of the world, and a gusher of wealth from the Silicon Gold Rush. It has been generating jobs, spawning new innovation, and spreading ideas that are changing lives everywhere. It boasts of being the Left Coast, the Greenest City, and the best place for workers in the USA. So what could be wrong? It may seem that the Bay Area has the best of it in Trump's America, but there is a dark side of success: overheated bubbles and spectacular crashes, exploding inequality, and millions of underpaid workers, a boiling housing crisis, mass displacement, and severe environmental damage, a delusional tech elite, and complicity with the worst in American politics. This sweeping account of the Bay Area in the age of the tech boom covers many bases. It begins with the phenomenal concentration of IT in Greater Silicon Valley, the fabulous economic growth of the bay region, and the unbelievable wealth piling up for the 1% and high incomes of Upper Classes, in contrast to the fate of the working class and people of color earning poverty wages and struggling to keep their heads above water. The middle chapters survey the urban scene, including the greatest housing bubble in the United States, a metropolis exploding in every direction, and a geography turned inside out. Lastly, it hits the environmental impact of the boom, the fantastical ideology of TechWorld, and the political implications of the tech-led transformation of the bay region. *Business Basics for Musicians* Bobby Borg, 2024-01-02
