**Statistical Reference Index** ,1994 **Universities and Entrepreneurship** Paul Jones, Nikolaos

Apostolopoulos, Alexandros Kakouris, Christopher Moon, Vanessa Ratten, Andreas Walmsley, 2021-02-15 The aim of this book is to discuss how universities are acting in an entrepreneurial way by responding to educational and social challenges This will help to understand fruitful new areas of teaching research service and engagement that can occur in a university setting based on entrepreneurial thinking **Fixing Law Schools** Benjamin H. Barton, 2019-12-17 An urgent plea for much needed

reforms to legal education The period from 2008 to 2018 was a lost decade for American law schools Employment results were terrible Applications and enrollment cratered Revenue dropped precipitously and several law schools closed Almost all law schools shrank in terms of students faculty and staff A handful of schools even closed Despite these dismal results law school tuition outran inflation and student indebtedness exploded creating a truly toxic brew of higher costs for worse results The election of Donald Trump in 2016 and the subsequent role of hero lawyers in the resistance has made law school relevant again and applications have increased However despite the strong early returns we still have no idea whether law schools are out of the woods or not If the Trump Bump is temporary or does not result in steady enrollment increases more schools will close But if it does last we face another danger We tend to hope that crises bring about a process of creative destruction where a downturn causes some businesses to fail and other businesses to adapt And some of the reforms needed at law schools are obvious tuition fees need to come down teaching practices need to change there should be greater regulations on law schools that fail to deliver on employment and bar passage Ironically the opposite has happened for law schools they suffered a harrowing near death experience and the survivors look like they re going to exhale gratefully and then go back to doing exactly what led them into the crisis in the first place The urgency of this book is to convince law school stakeholders faculty students applicants graduates and regulators not to just return to business as usual if the Trump Bump proves to be permanent We have come too far through too much to just shrug our shoulders and move on
