Documentation Update: January to September 2004 , Financial Literacy and the Limits of Financial Decision-Making Tina Harrison, 2016-09-20 This book presents selected papers on the factors that serve to influence an individual's capacity in financial decision making Initial chapters provide an overview of the cognitive factors affecting financial decisions and suggest a link between limited cognitive capacity and the need for financial education The book then expands on these cognitive limitations to explore the tendency for overconfidence in decision making and the

interplay between rational and irrational factors Later contributions show how credit card companies benefit from limitations in consumer financial literacy how gender and cognition intersect to play an important role in financial decision making and how to improve financial capacity through financial literacy and education campaigns including those addressing developed marketplaces This comprehensive collection of papers will be of value to all readers who seek to better understand the multifactorial and complex nature of personal financial management in today's economic climate Engineer Update, 1996
