Free Speech in the Digital Age Susan J. Brison, Katharine Gelber, 2019-02-27 This collection of thirteen new essays is the first to examine from a range of disciplinary perspectives how the new technologies and global reach of the Internet are changing the theory and practice of free speech The rapid expansion of online communication as well as the changing roles of government and private organizations in monitoring and regulating the digital world give rise to new questions including How do philosophical defenses of the right to freedom of expression developed in the age of the town square and the printing press apply in the digital age Should search engines be covered by free speech principles How should international conflicts over online speech regulations be resolved Is there a right to be forgotten that is at odds with the right to free speech How has the Internet facilitated new speech based harms such as cyber stalking twitter trolling and revenge porn and how should these harms be addressed The contributors to this groundbreaking volume include philosophers legal theorists political scientists communications scholars public policy makers and activists

The Discursive-Digital Link Ehsan Dehghan, 2025-08-22 We are in a state of crisis Democracy is under threat authoritarian politics are on the rise and digital media once heralded as emancipatory technologies are increasingly implicated in democratic erosion The Discursive Digital Link offers a critical framework for understanding the entangled relationships between discourse digital media and the hidden dynamics behind antagonism and polarisation The Discursive Digital Link presents a fluid social ontology that theorises how discourses and digital communication technologies are inseparably entangled and how this entanglement contributes to the formation of complex hierarchical relations Drawing on discourse theory and new materialist perspectives Dehghan maps how the various components of the discursive digital link users collectives identities the medium's design underlying neoliberal capitalist logics and structural power dynamics together shape antagonistic frontiers in digital spaces Through detailed case studies across multiple digital media Dehghan demonstrates how these entanglements manifest through different articulatory logics that could transform societies towards either agonistic progress or disastrous polarisation By revealing the logics of discursive digital alliances and active passivity

Dehghan provides critical insights for academics activists and anyone seeking to foster progressive togetherness The Discursive Digital Link offers a powerful theoretical framework and methodology for analysing digitally mediated communication It challenges monolithic understandings of polarisation technological solutionism and symptom focused approaches instead advocating for radical structural interventions across all entangled components of the discursive digital link a necessary shift in both academic research and progressive political strategy to address the democratic crises of our time

Extremism and Radicalization in the Manosphere Deniese Kennedy-Kollar,2024-06-03 This book presents an analysis of the male supremacist ideology of the internet based subculture known as the manosphere and examines the process of radicalization to violent extremism that occurs within the group The manosphere is the online subculture comprised of several distinct groups who share a basic gender ideology that is misogynistic and anti feminist in the extreme The manosphere celebrates a toxic hegemonic masculinity that encourages sexual violence and portrays violence as an understandable response to a feminized culture that denigrates manhood Evidence has shown that several recent cases

of murder mass murder and rape involved offenders who participated in this subculture prior to engaging in their crimes Through the use of quotes gathered directly from the websites and message boards frequented by individuals within the subculture this book offers an in depth analysis of the ideology of the manosphere and the common attitudes values and beliefs promoted within the various groups that comprise the subculture It will also present a theoretical perspective that may shed light on what draws men to these groups and the processes by which they become radicalized to the far right and violent extremism This book will be of interest to scholars and students in criminology sociology and political science and others interested in examining the manifestation and effects of the manosphere on crime and criminal justice *Global beobachten und vergleichen* Hannah Bennani,Martin Bühler,Sophia Cramer,Andrea Glauser,2020-05-20 Ob K nstlerinnenrankings Getreideklassifikationen oder das Erfassen von Zwangsarbeit Praktiken des globalen Beobachtens und Vergleichens sind aus weltgesellschaftlichen Zusammenh ngen kaum noch weg zu denken Doch wie sind solche Verfahren entstanden Wie werden Vergleiche kommuniziert und mit welchen Folgen Die Beitr ge des Bandes geben detaillierte Einblicke in das vielf ltige Zusammenspiel von Vergleichspraktiken und Weltgesellschaft Social Informatics Frank Hopfgartner,Kokil Jaidka,Philipp Mayr,Joemon Jose,Jan Breitsohl,2022-10-11 This book constitutes the refereed proceedings of the 13th International Conference on Social Informatics SocInfo 2022 which took place in Glasgow UK during October 19 21 2022 The 22 full papers 8 short papers and 4 late breaking papers included in this book were carefully reviewed and selected from 102 submissions The deal with topics ranging from information system design on social concepts to analyzing complex social systems using computational methods or explore socio technical techniques using social sciences methods

Investigating Online Heritage Crime Damien Huffer,Evie Handby,2025-12-02 From Reddit and YouTube to collector forums and live auctions the avenues through which cultural heritage can be bought and sold are rapidly growing alongside new digital technologies Considering anew the implications of this digital expansion for the online trafficking of cultural property and human remains Investigating Online Heritage Crime conducts an exacting examination of these relatively under researched sites of heritage crime The chapters address how networks operate within and because of the interconnected social media and e commerce landscape Through doing so this volume highlights where markets for online heritage are headed especially given the ever prevalent adoption of AI and LLM Large Language Models technology that is profoundly reshaping all aspects of online life including licit and illicit commerce **Global Sceptical Publics** Jacob Copeman,Mascha Schulz ,2022-12-08 Global Sceptical Publics is the first major study of the significance of different media for the re production of non religious publics and publicity While much work has documented how religious subjectivities are shaped by media until now the crucial role of diverse media for producing and participating in religion sceptical publics and debates has remained under researched With some chapters focusing on locations hitherto barely considered by scholarship on non religion the book places in comparative perspective how atheists secularists and humanists engage with media as means of

communication and forming non religious publics but also on occasion as something to be resisted Its conceptually rich interdisciplinary chapters thereby contribute important new insights to the growing field of non religion studies and to scholarship on media and materiality more generally *The SAGE Handbook of Social Media Research Methods* Anabel

18th European Conference on Management, Leadership and Governance Florinda Matos,2022-11-10 **Reporting Techniques** Mr. Rohit Manglik,2022-12-22 Techniques and tools for accurate and ethical news reporting across different beats *Gaming Democracy* Adrienne L. Massanari,2024-10-29 How play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far right has gone mainstream In *Gaming Democracy* Adrienne Massanari tracks the flames of toxicity found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to the fields of internet studies

game studies and gender studies Massanari argues that Silicon Valley's emphasis on meritocracy and free speech absolutism has driven this rightward slide These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to game the ecology of platforms algorithms and attention economies While populist movements are not new phenomena such as QAnon parental rights activism and COVID denialism are uniquely of the internet with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to obfuscate their intentions Using the lens of play and game studies as well as the concept of metagaming Gaming Democracy is a novel contribution to our understanding of online platforms and far right political activism *Social Informatics*
