## **Sleep Hacks World Series Update:**

*Hack's 191* Bill Chastain, 2012-01-24 Hack Wilson's record 191 RBIs in 1930 may well stand the test of time and so may the record of his hard drinking lifestyle. In *Hack's 191* Bill Chastain recreates the most productive offensive season in baseball history while giving readers unique insight into the life of one of baseball's most fascinating enigmatic and yet neglected characters. Drunk or sober Wilson lived large in Prohibition era Chicago where the entertainment and nightclub industries thrived and Al Capone a friend of Wilson reigned as the most publicized gangster in America. Hack finished the 1929 season batting 345 with 39 home runs and 159 RBIs giving him his fourth consecutive 100 plus RBI season before for misplaying two fly balls in the World Series. Despite losing the Series the Cubs entered the 1930 season favored again to win the National League pennant. After a slow start and many bad breaks the team was in first place by the end of August with Hack Wilson leading the way. Chronicling the ups downs and record setting accomplishments of Lewis R Hack Wilson this book returns arguably the most hard living hard hitting ballplayer in history to the lineup of the game's greats.

Sensehacking Charles Spence, 2021-01-14 The world expert in multisensory perception on the remarkable ways we can use our senses to lead richer lives. Talks total sense lots of fun facts right up there with the best of the best. Chris Evans Packed with studies on pain attention memory mood. The Times How can the furniture in your home affect your wellbeing? What colour clothing will help you play sport better? And what simple trick will calm you after a tense day at work? In this revelatory book pioneering and entertaining Oxford professor Charles Spence shows how our senses change how we think and feel and how by hacking them we can reduce stress become more productive and be happier. We like to think of ourselves as rational beings and yet it's the scent of expensive face cream that removes wrinkles temporarily a room actually feels warmer if you use a warmer paint colour and the noise of the crowd really does affect the referee's decision. Understanding how our senses interact can produce incredible results. This is popular science at its unbelievable best. Spence does for the senses what Marie Kondo does for homes. Avery Gilbert author of *What the Nose Knows* Everything you need to know about how to cope with the hidden sensory overload of modern life engagingly told. Robin Dunbar author of *How Many Friends Does One Person Need*. *Hacking Life* Joseph M. Reagle, Jr., 2019-04-16 In an effort to keep up with a world of too much life hackers sometimes risk going too far. Life hackers track and analyze the food they eat the hours they sleep the money they spend and how they're feeling on any given day. They share tips on the most efficient ways to tie shoelaces and load the dishwasher they employ a tomato shaped kitchen timer as a time management tool. They see everything as a system composed of parts that can be decomposed and recomposed with algorithmic rules that can be understood optimized and subverted. In *Hacking Life* Joseph Reagle examines these attempts to systematize living and finds that they are the latest in a long series of self improvement methods. Life hacking he writes is self help for the digital age's creative class. Reagle chronicles the history of life hacking from Benjamin Franklin's *Poor Richard's Almanack* through Stephen Covey's *7 Habits of*

Highly Effective People and Timothy Ferriss's The 4 Hour Workweek He describes personal outsourcing polyphasic sleep the quantified self movement and hacks for pickup artists Life hacks can be useful useless and sometimes harmful for example if you treat others as cogs in your machine Life hacks have strengths and weaknesses which are sometimes like two sides of a coin being efficient is not the same thing as being effective being precious about minimalism does not mean you are living life unfettered and compulsively checking your vital signs is its own sort of illness With Hacking Life Reagle sheds light on a question even non hackers ponder what does it mean to live a good life in the new millennium **U.S. News & World Report**, 2005 Billion Dollar Brand Club Lawrence Ingrassia, 2020-01-28 A leading business journalist takes us inside a business revolution the upstart brands taking on the empires that long dominated the trillion dollar consumer economy Dollar Shave Club and its hilarious marketing Casper mattresses popping out of a box Third Love's lingerie designed specifically for each woman's body Warby Parker mailing you five pairs of glasses to choose from You've seen their ads You or someone you know use their products Each may appear in isolation as a rare David with the bravado to confront a Goliath but taken together they represent a seismic shift in a business model that has lasted more than a century As Lawrence Ingrassia former business and economics editor and deputy managing editor at the New York Times shows in this timely and eye opening book a growing number of digital entrepreneurs have found new and creative ways to crack the code on the bonanza of physical goods that move through our lives every day They have discovered that manufacturing marketing logistics and customer service have all been flattened where there were once walls that protected big brands like Gillette Sealy Victoria's Secret or Lenscrafters savvy and hungry innovators now can compete on price value quality speed convenience and service Billion Dollar Brand Club reveals the world of the entrepreneurs venture capitalists and corporate behemoths battling over this terrain And what fun it is It's a massive high stakes business saga animated by the personalities flashes of insight and stories behind the stuff we use every day *Fouled Away* Clifton Blue Parker, 2010-06-28 A hundred and ninety one Mention the number anywhere near a ballpark and before you can ask who or what fans will almost certainly shape their lips with a single word Wilson They'll tell you Hack Wilson a burly bull necked outfielder who roamed Wrigley Field in the 1920s and 1930s was the man who drove in 191 runs in 1930 more than most players had hits A few of them will know that in 1929 Wilson racked up 159 RBI and hit 39 home runs Still fewer might be able to tell you that for the four seasons 1927 1930 the slugger hit no fewer than 30 home runs a season and drove home no fewer than 120 But you are unlikely to find more than a handful of fans who know how the Cub great's career came to an end Or when Or why The heir apparent to Ruth's title of world beater Wilson was a star by his late 20s and a record setter by 30 But he was also an alcoholic who was as practiced at swinging his fists as he was his bat By his early 30s his days as a full time player were behind him and by 48 he was dead his son refused to claim the body This biography examines the turbulent life and career of one of the most dominant short stint powerhitters ever to pull on a uniform From Wilson's early career as a steelworker

through his time as the beloved ballplayer and icon for the City of Big Shoulders to his days as a down on his luck baseball washout and itinerant laborer an unflinching look at this Hall of Famer is provided Effortless Greg McKeown, 2021-04-27

In a world beset by burnout Greg McKeown's work is essential Daniel H Pink Effortless shows that achieving more doesn't have to be as hard as we make it out to be Arianna Huffington NEW YORK TIMES BESTSELLER A Times UK Best Book of the Year From the author of the million copy selling Essentialism comes an empowering guide to achieving your goals It all starts with a simple principle Not everything has to be so hard The intricacy of modern life has created a false dichotomy between things that are hard and important and those that are easy and trivial Everything has become so much harder than it ought to be But Greg McKeown bestselling author of Essentialism says there is a third alternative In Effortless he offers practical tools for making the most essential activities the easiest ones so you can achieve the results you want without burning out Honed over the better part of a decade these strategies include Turning tedious tasks into enjoyable rituals Preventing frustration by solving problems before they arise Setting a sustainable pace instead of powering through Making one time choices that eliminate many future decisions Making relationships easier to maintain and manage And much more McKeown's philosophy of essentialism has helped thousands to recognise that the effortless way isn't the lazy way It's the smart way Not every hard thing in life can be made easy but we can make it easier to do more of what matters most Effortless will show you how Biohackers Magazine Issue 11 Biohackers , The world and the humans share a special bond together The world is a place full of vibrant life unpredictable events and a sort of beautiful self sustaining chaos The Human being's journey on this Earth is one that is corporeal yet also deeply spiritual The world presents so many things into our lives that often we forget that we are more than just what invokes responses from our physical senses What separates man from every other creature is his ability to think rationally What man lacks in survival endowments such as long claws fur etc man makes up for in his ability to know Man can think and know that he thinks Man can eat and know that he eats Man can speak and know that he speaks The human being is able to conquer and have dominion over the creatures and the world itself because of this unique ability to know rationally There are many different areas where the human being shows this separation of pure intellect One would be his tool making ability or homo Faber It is true that some monkeys can make tools but it is the only man that makes these tools not just as an extension of their bodily reach but as direct fruition of their thoughts Community Language Science Arts Religion Death and Culture are all elements that show man's rationality his intellect The intellect exists in the soul of man and animates the body through the influence on man's free will Too often we focus on the superficial parts of ourselves and get lost in the mainstream's constant influential assault about how we should be physical While of course we are composed of the body we must remember that it is the soul that also makes up our life and its health must also be taken into consideration in everything we do We can define a human being as a rational animal a composite of both body and soul Its soul is the subsistent element and its powers involve the knowing intellect and the will to do good With free will

aiming toward good and knowledge aiming towards the truth the human being works towards becoming more beautiful in the sense of intentionality of culture Biohacking in its deepest sense must look beyond the temporal world of physiological and temporal matter and adhere to the health and the growth of the human soul We are all on this Earth together and as biohackers we have the mission of increasing our knowledge every single day to feed not only our bodies and brains but most importantly our souls When one chooses to take the time to explore such questions as who they are and how they act and where they are going and what is their purpose they increase their value as a person through this continual development Their soul becomes more of a master over their temporal body and they can live life with perhaps more peace and happiness because of their continued growth and development of their soul which acts through their body
