

Reading Comprehension

Read the short passage and answer the questions

The Sick Lion

A Lion had come to the end of his days and lay sick unto death at the mouth of his cave, gasping for breath. The animals, his subjects, came round him and drew nearer as he grew more and more helpless. When they saw him on the point of death they thought to themselves: "Now is the time to pay off old grudges." So the Boar came up and drove at him with his tusks; then a Bull gored him with his horns; still, the Lion lay helpless before them: so the Ass, feeling quite safe from danger, came up, and turning his tail to the Lion kicked up his heels into his face. "This is a double death," growled the Lion.

1. The lion was about to
☐ jump ☐ die
☐ eat ☐ run
2. The animals were
☐ helping ☐ happy
☐ helpless ☐ sad
3. The meaning of the word "gasping" is
☐ To look for gas
☐ Breathing with open mouth
☐ Eating gas
☐ To drink water
4. The boar drove at the lion with his
☐ legs
☐ tail
☐ tusks
☐ body
5. Why did the animals hurt the lion more?

OECD Reviews of Vocational Education and Training A Skills beyond School Review of Switzerland Fazekas Mihály,Field Simon,2013-01-07 This report on Switzerland examines what kind of training will be needed in the changing economy how it can be funded how it can be linked to academic programmes and how employers and unions can be engaged

Research in Education ,1974

Improving Working Memory in Learning and Intellectual Disabilities Silvia Lanfranchi,Barbara Carretti,2016-08-05 The last forty years of research have demonstrated that working memory WM is a key concept for understanding higher order cognition To give an example WM is involved in reading comprehension problem solving and reasoning but also in a number of everyday life activities It has a clear role in the case of atypical development too For instance numerous studies have shown an impairment in WM in individuals with learning disabilities LD or intellectual disabilities ID and several researchers have hypothesized that this can be linked to their difficulties in learning cognition and everyday life The latest challenge in the field concerns the trainability of WM If it is a construct central to our understanding of cognition in typical and atypical development then specific intervention to sustain WM performance might also promote changes in cognitive processes associated with WM The idea that WM can be modified is debated however partly because of the theoretical implications of this view and partly due to the generally contradictory results obtained so far In fact most studies converge in demonstrating specific effects of WM training i e improvements in the trained tasks but few transfer effects to allied cognitive processes are generally reported It is worth noting that any maintenance effects when investigated are even more meagre In addition a number of methodological concerns have been raised in relation to the use

of 1 single tasks to assess the effects of a training program 2 WM tasks differing from those used in the training to assess the effects of WM training and 3 passive control groups These and other crucial issues have so far prevented any conclusions from being drawn on the efficacy of WM training Bearing in mind that the opportunity to train WM could have a huge impact in the educational and clinical settings it seems fundamentally important to shed more light on the limits and potential of this line of research The aim of the research discussed here is to generate new evidence on the feasibility of training WM in individuals with LD and ID There are several questions that could be raised in this field For a start can WM be trained in this population Are there some aspects of WM that can be trained more easily than others Can a WM training reduce the impact of LD and ID on learning outcomes and on everyday living What kind of training program is best suited to the promotion of such changes Resources in Education ,1998 *Tutorials in Bilingualism* Annette M.B. de Groot, Judith F.

Kroll,2014-05-12 The past fifteen years have witnessed an increasing interest in the cognitive study of the bilingual A major reason why psychologists psycholinguists applied linguists neuropsychologists and educators have pursued this topic at an accelerating pace presumably is the acknowledgment by increasingly large numbers of language researchers that the incidence of monolingualism in individual language users may be lower than that of bilingualism This alleged numerical imbalance between monolinguals and bilinguals may be expected to become larger due to increasing international travel through for instance tourism and trade to the growing use of international communication networks and to the fact that in some parts of the world i e Europe the borders between countries are effectively disappearing In addition to the growing awareness that bilinguals are very common and may even outnumber monolinguals there is the dawning understanding that the bilingual mind is not simply the sum of the cognitive processes associated with each of the two monolingual modes and that the two languages of bilingual may interact with one another in complicated ways To gain a genuinely universal account of human cognition will therefore require a detailed understanding of language use by both pure monolinguals as well as bilinguals unbalanced and balanced and of the representations and processes involved These two insights that bilingualism is a common human condition and that it may influence cognition were presumably instrumental in putting bilingualism on the agendas of many researchers of cognition and language in recent years But other reasons may have played a role too The study of bilingualism also provides a unique opportunity to study the relation between language and thought A final reason for the growing interest in this area of research is the awareness that bilingualism may confer the benefit of broadening one's scope beyond the limits of one's own country and culture This book serves as an excellent introduction to the important topics in the psycholinguistic study of bilingualism The chapters represent a comprehensive and interrelated set of topics that form the core of contemporary research on the psycholinguistics of bilingualism The issues raised within this perspective not only increase our understanding of the nature of language and thought in bilinguals but also of the basic nature of the mental architecture that supports the ability to use more than one language **New Educational Technologies and Their**

Impact on Students' Well-being and Inclusion Process Maria Luisa Lorusso, Daniela Traficante, Mirta Vernice, Barbara Carretti, Daniela Maria Sarti, 2022-01-13 Training Readers and Writers for a Multimodal and Multimedia Society: Cognitive Aspects Ester Trigo-Ibanez, Inmaculada Clotilde Santos Diaz, Marcela Jarpa, 2024-02-07 Contemporary societies have been advancing gradually towards the construction of a model of a literate population Significant efforts have been made so that most citizens can access various sources today using their reading and writing abilities but are we really prepared to face the information age Is information literacy being promoted from schools Are individual capabilities being considered Do we have a true critical literacy This article collection aims to show an overview of the most recent research ranging from the individual to the collective from the subject's competencies and their beliefs to the way to develop them from school There is room in this Research Topic for investigations belonging to the linguistic psychological and didactic field This Research Topic aims to address a pressing problem in contemporary world societies It is proposed to offer various contributions related to critical literacy in general and reading and writing In this sense research that addresses analog and digital reading writing processes academic literacy and the use of resources such as non fiction illustrated books to develop critical thinking will be welcome But also and in a very important way the cognitive processes of the subject will be considered not only to deal with access to information but also in the construction of their mental lexicon an issue that offers the vision of the world of those who are immersed in literacy and in the post truth era **Diagnostik und Förderung des Leseverständnisses** Wolfgang Lenhard, Wolfgang Schneider, 2009-03-05 Lesen ist eine zentrale Technik die für sehr unterschiedliche Zwecke funktional ist bei Texten werden nicht nur Informationen und Fakten vermittelt sondern auch Ideen Wertvorstellungen und kulturelle Inhalte transportiert Da Wissen heute und sicher auch in Zukunft zum größten Teil in Texten aufgehoben und weitergegeben wird hat Lesekompetenz auch außerhalb der Schule einen hohen Stellenwert Die Fähigkeit geschriebene Texte zu verstehen und zu nutzen stellt nicht nur eine zentrale Bedingung für die Weiterentwicklung eigenen Wissens und eigener Fähigkeiten dar sondern ist zugleich auch Voraussetzung für die Teilhabe am gesellschaftlichen Leben Aufgrund dieser zentralen Bedeutung der Lesekompetenz muss dieses Fähigkeitsfeld im Zentrum schulischer und außerschulischer Bildungsbemühungen stehen Ziel dieses Bandes ist es alle relevanten Informationen zu vermitteln die für die nachhaltige Förderung der Lesekompetenz von Kindern und Jugendlichen notwendig sind Zum einen wird behandelt welche Teilfähigkeiten und Determinanten das Leseverständnis bedingen Zum anderen stellen Testautoren Diagnoseverfahren dar mit denen sowohl basale als auch komplexe Leseleistungen erfassbar sind Im letzten Teil wendet sich das Buch Förderansätzen und Interventionsprogrammen zu und zeigt auf welche konkreten Konzepte zur Verfügung stehen Bei der Darstellung von Verfahren beschränkt sich das Buch nicht allein auf derzeit verfügbare Programme sondern gibt bereits Einblicke in Verfahren die sich noch in Entwicklung befinden *Film & Video Finder*, 1989 The Latest and Best of TESS, 1991

Facilitating Cognitive Development Milton Schwebel, Charles A. Maher, 1986 The vital aspects of designing

implementing and evaluating programs and services that will facilitate cognitive development in children and adolescents are the focus of this important book. Leading scholars, researchers and practitioners from throughout the world address these issues, offering a sound conceptual and empirical knowledge base for special services providers in taking a leadership role in facilitation of cognitive development in schools. Handbook of Research on Reading Comprehension, Second Edition Susan E. Israel, 2017-01-02. This edition provides a transformative snapshot of reading comprehension as a field of study at a seminal moment. It maintains the same high level of standards with respect to 1) historical perspectives useful for laying the foundation of study on reading comprehension, 2) theoretical perspectives that allow the reader to consider different views on how specific areas have evolved since the first edition, 3) excellent chapters on various elements of reading comprehension including major research studies in assessment, cultural impacts of reading comprehension issues affecting English language learners and consideration of international populations, and 4) identification of future research needs to help raise important questions and stimulate possible hypotheses for future research. OECD Reviews of Vocational Education and Training A Skills beyond School Review of Peru McCarthy Mary Alice, Musset Pauline, 2016-10-14. Vocational education and training VET programmes are facing rapid change and intensifying challenges. How can employers and unions be engaged? How can workbased learning be used? How can teachers and trainers be effectively prepared? How should postsecondary programmes be structured? *Training von Lesekompetenz* Stephanie Schreblowski, Detlef H. Rost, 2002.

Whispering the Strategies of Language: An Mental Journey through **Reading Comprehension Review Tutorial**

In a digitally-driven earth where monitors reign great and quick transmission drowns out the subtleties of language, the profound techniques and mental subtleties concealed within words usually get unheard.
