Medieval America Robert Yusef Rabiee, 2020-12-15 Medieval America analyzes literary legal and historical archives that help tell a new story about the formation of American culture Against Cold War era studies of U S culture that argued following political scientist Louis Hartz s liberal consensus model that the United States emerged from the Revolutionary era free from Europe s feudal institutions and uninterested in the production of its medieval culture productions Robert Yusef Rabiee contends that feudal law and medieval literature were structural components of the American cultural imaginary in the nineteenth century The racial gender and class formations that emerged in the first era of U S nation building were deeply indebted to medieval social political and religious thought an observation that challenges the liberal consensus model and allows us to better grasp how American social roles developed Far from casting off feudal tradition the early United States folded feudalism into its emerging liberal order creating a knotted system of values and practices that continue to structure the American experience Sometimes the feudal residuum contradicted the liberal values of the United States Other times the feudal residuum bolstered those values revealing deep sympathies between so called modern and premodern political thought Medieval America thus aims to reorient our discussions about American cultural and political development in terms of the long arc of European history

Internationalists in European History Jessica Reinisch, David Brydan, 2021-01-28 Representing a crucial intervention in the history of internationalism transnationalism and global history this edited collection examines a variety of international movements organisations and projects developed in Europe or by Europeans over the course of the 20th century Reacting against the old Eurocentrism much of the scholarship in the field has refocussed attention on other parts of the globe This volume attempts to rethink the role played by ideas people and organisations originating or located in Europe including some of their consequential global impact The chapters cover aspects of internationalism such as the importance of language communication and infrastructures of internationalism ways of grappling with the history of internationalism as a lived experience and the roles of European actors in the formulation of different and often competing models of internationalism It demonstrates that the success and failure of international programmes were dependent on participants ability to communicate across linguistic but also political cultural and economic borders By bringing together commonly disconnected strands of European history and history from below this volume rebalances and significantly advances the field and promotes a deeper understanding of internationalism in its many historical guises The volume is conceived as a way of thinking about internationalism that is relevant not just to scholars of Europe but to international and global history more generally

[Reading Fiction in Antebellum America](#) James L. Machor, 2011-04-01 James L Machor offers a sweeping exploration of how American fiction was received in both public and private spheres in the United States before the Civil War Machor takes four antebellum authors Edgar Allan Poe Herman Melville Catharine Sedgwick and Caroline Chesebro and analyzes how their works were published received and interpreted Drawing on discussions found in book reviews and in private letters and diaries Machor examines how middle class readers of the time engaged with contemporary fiction and how fiction reading evolved as an interpretative practice in nineteenth century America Through careful analysis Machor illuminates how the reading practices of nineteenth century Americans shaped not only the experiences of these writers at the time but also the way the writers were received in the twentieth century What Machor reveals is that these authors were received in ways strikingly different from how they are currently read thereby shedding significant light on their present status in the literary canon in comparison to their critical and popular positions in their own time Machor deftly combines response and reception criticism and theory with work in the

history of reading to engage with groundbreaking scholarship in historical hermeneutics In so doing Machor takes us ever closer to understanding the particular and varying reading strategies of historical audiences and how they impacted authors' conceptions of their own readership

Heller, 2014-03-19 What happens when a woman dares to imagine herself a hero Questing she sets out for unknown regions Lighting a torch she elicits from the darkness stories never told or heard before The woman hero sails against the tides of great legends that recount the adventures of heroic men legends deemed universal timeless and essential to our understanding of the natural order that holds us and completes us in its spiral Yet these myths and rituals do not fulfill her need for an empowering self image nor do they grant her the mobility she requires to imagine enact and represent her quest for authentic self knowledge The *Feminization of Quest Romance* proposes that a female quest is a revolutionary step in both literary and cultural terms Indeed despite the difficulty that women writers face in challenging myths rituals psychological theories and literary conventions deemed universal by a culture that exalts masculine ideals and universalizes male experience a number of revolutionary texts have come into existence in the second half of the twentieth century by such American women writers as Jean Stafford Mary McCarthy Anne Moody Marilynne Robinson and Mona Simpson all of them working to redefine the literary portrayal of American women's quests They work in part by presenting questing female characters who refuse to accept the roles accorded them by restrictive social norms even if it means sacrificing themselves in the name of rebellion In later texts female heroes survive their lighting out experiences to explore diverse alternatives to the limiting roles that have circumscribed female development This study of *The Mountain Lion* *Memories of a Catholic Girlhood* *Coming of Age in Mississippi* *Housekeeping* and *Anywhere but Here* identifies
