Peacekeeping and Related Stability Operations Nina M. Serafino, 2005 One of the most crucial and difficult tasks in peacekeeping and related stability operations is creating a secure and stable environment both for the foreign peacekeepers and for the indigenous population. Most of these approaches have included the use of United Nations International Civilian Police UNCIVPOL whose forces are contributed on a case by case basis by UN member states. While other countries usually contribute police personnel from their own national

forces the United States contracts those it contributes through a private corporation In a few cases such as Afghanistan and Iraq at this time coalition and US military forces and not the United Nation train and work with indigenous police forces to provide security This book presents an up to date evaluation of current issues in peacekeeping *FERC Statutes & Regulations* ,1979 **Catalog of Copyright Entries.
