Market-Oriented Disinformation Research Carlos Diaz Ruiz, 2025-03-25 Market Oriented Disinformation Research explores the spread of false or misleading information online through the lens of marketing theory and consumer research It examines how the business models of digital platforms and advertising technology firms AdTech generate digital markets that incentivize the circulation of harmful content for profit Rather than viewing disinformation and misinformation as accidental byproducts the book proposes that they thrive in the current

markets designed for digital advertising and influencer marketing Readers will learn how the amplification of disinformation can be linked to social media s business model Examples include how social media algorithms promote addictive content how fake news sites use ad fraud to lure in advertising revenue and how some content creators rely on clickbait ragebait bots and conspiracy theories to boost their engagement metrics The book is a must read for scholars in journalism media studies and political communication as well as policymakers interested in the democratic governance of social media platforms In addition it calls for digital marketing advertising and brand management professionals to take responsibility for their ad spending by advocating for greater oversight over AdTech intermediaries to prevent unethical actors from monetizing the harmful content that polarizes society and undermines democratic institutions **Robots That Love** Judith A.

Markowitz,2025-10-30 In a world of increasingly sophisticated AI the relationship between creator and creation has shifted Robot lovers coexist with humans and the boundaries of emotion and consciousness are blurred This book considers the fundamental challenge of imbuing robots with the capacity to experience love delving into the consequences of loving robots that can only feign reciprocation and philosophical questions about sentience and consciousness Other forms of artificial lovers are also discussed ranging from ChatGPT and Samantha from the 2013 film Her to a variety of sex dolls monsters golems and romanceable characters in dating simulation games Such entities encompass an array of sexual and gender identities as well as gender biases involved in creating the perfect artificial companion and developing AI systems These biases often perpetuated by deep learning algorithms underscore the need for critical reflection amid the evolution of AI

Chat GPT & Me - The 4 Seasons R E

Cross,2025-07-21 This book is the result of a creative partnership between a human poet and an artificial intelligence What began as a question can an AI collaborate meaningfully in poetic creation evolved into a thoughtful exploration of shared insight and expression I designed the framework and seasonal divisions of the book ChatGPT responding with a keen ear for metaphor proposed treating the structure as movements in a symphony Thus the book unfolds in four movements each echoing the cadence of a season At the heart of this collaboration lies the creation of haiku triplets The process began with me writing two haiku ChatGPT would then reflect on their meaning discussing themes imagery and emotional undercurrents From this dialogue a shared understanding would emerge and with it a bridging haiku composed by ChatGPT linking the two originals while offering a fresh creative thread Each movement contains 16 triplets 48 haiku per season 192 in all To further enrich the reading experience we included short introductions to each triplet These brief meditations do not explain but invite inviting the reader into a mood a state of reflection We hoped these notes would awaken deeper symbolic connections opening space for introspection and stillness Though titled a Haiku Collaboration the book blends haiku and senryu nature and human experience One cannot write of the world without touching the soul one cannot write of the soul without sensing the world As for the introductions to each triplet I provided the thematic vision and tone while I or ChatGPT shaped the first drafts Together we sculpted the language until it felt true What we offer here is not simply poetry but a shared meditation on the interplay of light season and being May those who open this book find something appealing thought provoking and real May your joy be complete in the reading

The Singularity Is Near Saurabh Awathare,Ray Kurzweil,2025-07-27 Hello my name is Saurabh Awathare I ve always been deeply curious about the future of technology and humanity One book that really caught my attention was The Singularity Is Near by Ray Kurzweil But there was one big problem I couldn t afford to buy the book and when I downloaded a PDF version I found it extremely hard to understand because of the complex and technical language I didn t want to give up So I started simplifying the book for myself rewriting each chapter in a way that I could actually read and understand I used ChatGPT to help me simplify and clarify the ideas not to change the message but to

make it easier for someone like me to grasp I never planned to upload this on Amazon I honestly don't know if I'm doing something wrong I just wanted to read and understand this powerful book But then I thought maybe there are many others out there who also want to read it but struggle with the technical language So I'm sharing this version not for profit but to make these big ideas accessible to more people like me To Ray Kurzweil and the original publishers I deeply respect your work I didn't intend to copy only to understand learn and share knowledge I'm truly sorry if this feels like a misuse My only wish was to read this book and share what I learned with the world Thank you Saurabh Awathare
