strategies and practices for supporting first generation college goers In Ready Willing and Able Mandy Savitz Romer and Suzanne Bouffard focus on the developmental tasks and competencies that young people need to develop in order to plan for and succeed in higher education These include identity development articulating aspirations and expectations forming and maintaining strong peer and adult relationships motivation and goal setting and self regulatory skills such as planning The authors challenge the predominant approach of giving young people information and leaving it to them to figure out how to apply it They show how well intended college access efforts can miss the mark for instance by focusing on students who already see themselves as college material rather than working to help all students develop a college going identity In addition most college access programs and practices focus almost exclusively on providing academic preparation and financial support In Ready Willing and Able Savitz Romer and Bouffard call for a new approach one that emphasizes the key developmental tasks and processes of adolescence and integrates them into existing college access practices in meaningful ways Rather than treating young people as passive recipients of services they argue adults can engage them as active agents in the construction of their own futures

Tax Strategy Vs. Countermeasures Naoki Matsuda,2015-12-19 In todays world where it has become fairly easy for a taxpayer to move back and forth from one country to another it has become quite a common tax strategy especially among wealthy individuals and multinational companies to transfer their residence income and assets abroad mainly to reduce tax burden Particularly in Europe many wealthy individuals have moved their residence abroad mostly for tax purpose Thus tennis legend Bjorn Borg who was known to have transferred decades ago his residence from Sweden to Monaco is obviously not alone A more recent well publicized case was Gerard Depardieu who showed his intention of leaving France after having acquired Russian citizenship in 2013 This famous French actor and entrepreneur is reported to have made a comment that the French governments recent plan of raising the top marginal individual income tax rate is just like penalizing talented people who have achieved success in their careers

coupled with delayed gratification This has prepared me to get through school as a collegiate athlete and to also make hard sacrifices which allowed me to earn my doctorate degree
