for eigene Projekte *Privacy and Identity Management. Data for Better Living: AI and Privacy* Michael Friedewald, Melek Önen, Eva Lievens, Stephan Krenn, Samuel Fricker, 2020-03-10 This book contains selected papers presented at the 14th IFIP WG 9.2.9.6.11.7.11.6 SIG 9.2.2 International Summer School on Privacy and Identity Management held in Windisch Switzerland in August 2019 The 22 full papers included in this volume were carefully reviewed and selected from 31 submissions Also included are reviewed papers summarizing the results of workshops and tutorials that were held at the Summer School as well as papers contributed by several of the invited speakers The papers combine interdisciplinary approaches to bring together a host of perspectives which are reflected in the topical sections language and privacy law ethics and AI biometrics and privacy tools supporting data protection compliance privacy classification and security assessment privacy enhancing technologies in specific contexts The chapters What Does Your Gaze Reveal About You On the Privacy Implications of Eye Tracking and Privacy Implications of Voice and Speech Analysis Information Disclosure by Inference are open access under a CC BY 4.0 license at link.springer.com *What Matters for Health and Happiness Among the Older Adults in Asia* Nai Peng Tey, Halimah Awang, Shekhar Chauhan, 2024-03-11 People want to live a healthy and happy later life A large body of literature shows the close association between health status and happiness and between health and active engagement in work exercise and social and religious activities However the causation between the two can run both ways and it is difficult to determine the causal effect with cross sectional data Various authors have shown the significant influence of socioeconomic factors and human needs on older people's health status and happiness A better understanding of the factors affecting healthy and happy aging is essential for policymaking to improve the well being of older people The availability of data from HRS family studies in several Asian countries CHARLS in China LASI in India JSTAR in Japan KLoSA in Korea IFLS in Indonesia HART in Thailand MARS in Malaysia and Longitudinal Study of Ageing and Health in Viet Nam see Gateway to Global Aging Data provides an excellent opportunity for researchers to examine factors affecting health and happiness among older adults within and across Asian countries This research topic aims to gather papers that investigate the socioeconomic attitudinal and behavioural factors affecting the health status and happiness life satisfaction of older adults in Asia The dependent variables may include physical health mental health disability ADL IADL cognitive functioning self rated health health expenditure feeling of happiness and life satisfaction The independent variables may be age gender marital status place of residence educational level active engagement work exercise social and religious activities family and social relationship and support outlook in life smoking drinking and access to and utilization of healthcare services etc Manuscripts can be based on individual countries or cross country analysis preferably using the panel data to establish the causal effects of the independent variables on the dependent variables **Security in Smart Home Networks** Yan Meng, Haojin Zhu, Xuemin (Sherman) Shen, 2023-01-17 This book presents the security and privacy challenges of the smart home following the logic of terminal device voice interface application platform For each component the authors provide

answers to the three questions 1 In the terminal device layer how to conduct cross layer privacy breach analysis and provide effective countermeasures 2 In the voice interface layer how to design effective and lightweight schemes to defend against voice spoofing 3 In the application layer how to design an effective anomaly detection system without breaching the application platform The authors conduct a thorough analysis of the security threats and challenges in each component of the smart home review the existing state of the art solutions proposed by other researchers and elaborate on proposed countermeasures This book aims to provide both security threats analysis and state of the art countermeasures for the smart home network

The Smarthome Book Andrew Howe, Technology is playing an increasingly more important part in our homes as well as our day to day lives Get this simple to read guide to be introduced to structured wiring and smarthome concepts It will not only take you through the requirements necessary to implement these upgrades but also provide a long list of inspirational and useful ideas to help make your smarthome upgrade not only a reality but fun Through the chapters of this book we cover the various topics and components which will provide an insight into upgrading your home and making it smart Considering a renovation or a new build Then look no further as this will detail the basics of home cinema whole house audio and video systems security with remote monitoring energy efficiency and how best to set up your data network all wrapped up in an easy to read format with easily laid out diagrams and a glossary of terms and links at the end to further your quest Consider how long people spend deciding what flooring to lay down or what tiles to place in the kitchen or bathroom Now consider how long people spend on what type of cabling will allow them to have that cool minimalist look in their renovation Those hidden wires the intelligent lighting the surround sound the energy efficient heating Read this book before speaking to your electrician or installer Save yourself time and money by being prepared

Gerontechnologies for Home Support Alexander Moreno, Sumi Helal, Henk Herman Nap, Gloria M. Gutman, 2024-10-07 In recent years various digital and non digital gerontechnology applications in home support have been developed From medication administration aids e g reminders and alarms to environmental monitoring e g air quality sensors and cameras to fall detection and health and activity monitoring e g smartwatch these promising solutions are in the works or already in the marketplace Additionally the COVID 19 pandemic has accelerated the development and deployment of technological solutions supporting remote care and communication e g video calls and home service delivery e g meals and groceries both of which have been developed to facilitate aging in place This is significant especially as avoiding the institutionalization of older adults has become a major goal of governments and caring families around the world These technologies are a potential solution to help older adults and family caregivers age at home maintain autonomy and independence and avoid social isolation These technologies can reduce the workload of professional caregivers It is crucial to update our knowledge on evidence based technologies for home support tested simultaneously in older adults and their family caregivers Healthcare professionals and families are often disadvantaged by a lack of information demonstrating their utility and cost effectiveness This article collection focuses

on providing evidence based information about emerging and existing gerontechnologies which is essential to make an informed decision in recommending their use or deciding to purchase them For older adults it will provide proofs upon which to make an informed decision to invest in a specific technology when needed For family caregivers it will improve their judgment when trying to choose purchase and adopt a technology aiming to solve a problem at home and have peace of mind when these technologies are used to support their loved ones For clinicians it will provide a pool of evidence based technological tools that could be recommended to families facing the loss of autonomy and independence of older adults For researchers and scholars it will provide a base of knowledge for future applied research in gerontechnology Finally improving the evidence in gerontechnology will help to provide cues for policymakers and governments to create legislation aiming to protect the public and the end users of these technologies

destructive material testing non destructive testing ndt - Jul 25 2022

web jul 13 2018 in destructive materials testing the material is damaged in non destructive materials testing the workpiece is left undamaged materials such as steels generally have to withstand a wide variety of loads the different types of loads can be classified as follows tension compression

pmg non destructive testing and instrumental analysis - Nov 28 2022

web 1 purpose of non destructive testing and instrumental analysis 2 factors to consider before examining and testing 3 effects of examining and testing on photographic materials 4 techniques for non destructive analysis 4 1 appearance measurement 4 2 elemental analysis 4 3 infrared ir imaging 4 4 micro fade testing slightly destructive

materials free full text non destructive detection of real - Jan 31 2023

web oct 20 2022 abstract this paper presents results of ultrasonic non destructive testing of carbon fibre reinforced plastics cfrps and glass fibre reinforced plastics gfrps

non destructive testing methods applications safetyculture - Jul 05 2023

web dec 2 2022 non destructive testing ndt is a type of testing that is used to evaluate the properties of a material component or system without causing damage it is an essential tool in many industries including the aerospace automotive

construction and manufacturing sectors

conserving heritage buildings with non destructive testing - Sep 26 2022

web aug 26 2021 non destructive testing ndt investigates the material integrity of everything from machinery to industrial plant infrastructure to buildings but with the distinction of leaving no damage in doing so its value often lies in flagging issues indiscernible otherwise

materials special issue research on non destructive testing in - Jun 23 2022

web jul 10 2023 the integrated destructive and non destructive method can reveal the in situ information of inclusions and give the possible relationship between inclusions and process and material properties full article

non destructive testing ndt services for plants tÜv sÜd - May 23 2022

web tÜv sÜd helps to test your plant s components and systems for safety and compliance tÜv sÜd s plant engineering experts have the technical expertise and experience to support you in carrying out challenging ndt tasks across all relevant fields of applications trained to perform testing in accordance with all international standards

recent advancements in non destructive testing techniques for - May 03 2023

web mar 18 2021 this paper will review and summarize the recent advancements in non destructive testing techniques namely sweep frequency approach ground penetrating radar infrared technique fiber optics sensors camera based methods laser scanner techniques acoustic emission and ultrasonic techniques

non destructive testing of materials in civil engineering - Aug 06 2023

web oct 3 2019 2 non destructive testing in construction modern diagnostic methods are applied to building structural members and structures another major diagnostic field is the non destructive testing of building materials

special issue modern non destructive testing for metallic materials - Aug 26 2022

web aug 31 2023 as editors we are interested in the most recent developments and discoveries in the field of non destructive testing methods these may include new microscopic techniques the latest improvements in x ray and ultrasonic 3d imaging as well as acoustic electromagnetic and thermal inspection methods

a complete guide to non destructive testing nts unitek - Feb 17 2022

web sep 18 2023 non destructive testing ndt is a methodical assessment technique that inspects materials components or structures without causing damage the main advantage of non destructive testing is that it preserves the object s integrity and minimizes production disruptions

destructive non destructive testing of materials ppt - Mar 21 2022

web jul 11 2018 non destructive testing of material nondestructive testing ndt is a wide group of analysis techniques used in science and technology industry to evaluate the properties of a material component or system without causing damage ndt

does not permanently alter the article being inspected it is a highly valuable technique

non destructive techniques used in materials conservation - Oct 08 2023

web non destructive testing can provide information on technique age composition condition and structural components alternatively the conservator may need information on the stability or underlying condition of the object this information is essential in developing the most appropriate treatment proposal for an object visual examination

non destructive testing an overview sciencedirect topics - Apr 02 2023

web non destructive testing ndt is a method of testing materials and components without damaging or destroying them it is suitable in cases where the test sample should remain intact especially in cases of high responsibility parts when 100 control need to be performed and in cases of parts with expensive production processes that justify ndt

what is non destructive testing ndt methods and definition - Oct 28 2022

web non destructive testing ndt is a testing and analysis technique used by industry to evaluate the properties of a material component structure or system for characteristic differences or welding defects and discontinuities without causing damage to
