

10 STEP WEIGHT LOSS EXERCISE PLAN

#1 WALK FOR 30 MINUTES EACH DAY

Calories Burned Per Day = 120
Calories Burned Per Week = 840

Walking 30 minutes per day may not seem like much but the consistent effort really pays off and burns close to 1,000 calories in a week.

If a 30 minute walk in one go sounds like too much, try splitting it up into three shorter 10 minute walks.

#2 SPRINT FOR 5 MINUTES EACH DAY

Calories Burned Per Day = 100
Calories Burned Per Week = 700

Adding just 5 minutes of sprinting to your day burns through an impressive 700 calories per week.

Simply do five 1 minute bursts of sprinting at various intervals during the day or make them part of your walk.

#3 DO 5 MINUTES OF BURPEES EACH DAY

Calories Burned Per Day = 46
Calories Burned Per Week = 322

Burpees are a functional, full body exercise that tone and strengthen all your muscles and can help you burn 300+ calories per week.

#4 DO 5 MINUTES OF JUMPING JACKS EACH DAY

Calories Burned Per Day = 48
Calories Burned Per Week = 336

Jumping jacks are a simple but effective cardiovascular exercise that you can perform anytime and anywhere, whenever you have 5 minutes to spare. Not only are they a great calorie burner but they also target all the muscles in your lower body.

#5 GO TO A 1 HOUR SPINNING CLASS EACH WEEK

Calories Burned Per Week = 700

Spinning is one of the most intensive cardiovascular classes there is and burns through a substantial 700 calories in a 1 hour session. Attending just one spinning class per week can make a huge difference when it comes to your overall weight loss success.

#6 DO 1 HOUR OF SWIMMING EACH WEEK

Calories Burned Per Week = 660

Swimming is a brilliant exercise that burns through an impressive 660 calories per hour and gives you a full body workout at the same time. It's also a relatively low impact exercise and a great alternative to the higher impact exercises on this list.

#7 LIFT WEIGHTS FOR 2 HOURS EACH WEEK

Calories Burned Per Week = 440

When it comes to direct calories burned, lifting weights isn't a very efficient exercise. However, muscle cells burn three times more calories than fat cells, so by increasing your overall muscle mass, you can indirectly give the amount of calories your body burns each day a huge boost.

#8 JOG FOR 1 HOUR EACH WEEK

Calories Burned Per Week = 476

Jogging is another excellent exercise for working away those calories and losing weight. It's also a very flexible exercise that can be performed outside or inside on a treadmill.

#9 WEAR ANKLE WEIGHTS WHEN YOU WALK

Calories Burned Per Day = 50
Calories Burned Per Week = 350

Once you've implemented steps 1-8, an innovative way to blast through a few more calories is to wear ankle weights during your daily 30 minute walk. This won't take up any more of your time but the added resistance will burn off 300+ extra calories a week.

#10 GET IN THE RIGHT FRAME OF MIND BEFORE YOU EXERCISE

After you've incorporated the previous nine physical habits into your lifestyle, one final way to boost your weight loss efforts is to get your mindset right before exercising. Doing these exercises without the proper motivation means you won't put maximum effort in and as a result, you'll burn less calories and lose less weight. So make sure that you're 100% motivated and focussed on your weight loss goals before you exercise and perform to your maximum potential.

SUMMARY

Total Calories Burned Per Day = 689
Total Calories Burned Per Week = 4,824

which equates to...

1.4lbs Of Fat Loss Per Week!

Fresh Vegetable Salad Recipes for Weight Loss:

Tips For A Healthy Diet Plan Victor Gourmand, Diet Plan for Weight Loss Cookbook Series As a seasoned home chef I have always been passionate about healthy eating and cooking Over the years I have learned that eating a healthy and balanced diet is the key to maintaining good health and well being And one of the best ways to do that is by incorporating fresh vegetable salads into your daily meals In my cookbook Fresh Vegetable Salad Recipes for Weight Loss Tips For A Healthy

Diet Plan I share my favorite recipes and tips for making delicious and nutritious salads that are perfect for weight loss. These salads are not only tasty but are also packed with nutrients that will help you feel full and satisfied. One of the things that I love about vegetable salads is how versatile they are. You can mix and match different vegetables, fruits, nuts, and dressings to create a salad that suits your taste and preference. Whether you prefer a classic green salad, a protein-packed salad, or a salad with a unique twist, there is something for everyone in this cookbook. In addition to being delicious and versatile, vegetable salads are also great for weight loss. Most vegetables are low in calories and high in fiber, which means they can help you feel full for longer periods of time and therefore help you eat fewer calories throughout the day. Additionally, salads are an excellent source of vitamins, minerals, and other essential nutrients that your body needs to function properly. When it comes to making vegetable salads, there are a few key ingredients that you should always have on hand. These include leafy greens such as spinach, kale, or arugula, as well as other vegetables like tomatoes, cucumbers, bell peppers, carrots, and onions. Adding fruits like berries, apples, or citrus fruits can also add a delicious and healthy twist to your salad. To make your salad even more nutritious, you can also add protein sources like chicken, fish, tofu, or beans. These ingredients will help you feel full and satisfied, and they are essential for building and repairing muscle tissue. Nuts and seeds are also a great addition to any salad, as they are high in healthy fats and provide a crunchy texture. When it comes to dressing your salad, there are many options to choose from. Homemade dressings are always a great choice, as they are usually healthier and more flavorful than store-bought ones. Simple dressings made with olive oil, vinegar, and lemon juice are always a great option, but you can also experiment with different flavors like honey mustard, tahini, or balsamic glaze. One of the best things about vegetable salads is that they are easy to prepare and can be made in advance. This means you can make a big batch of salad and keep it in the fridge for a few days, which is great for busy weekdays or when you don't feel like cooking. Mason jar salads are also a great option for meal prepping, as you can layer your ingredients and dressing in a jar and take it with you on the go. In my cookbook, I also share my tips for meal planning with vegetable salads. By incorporating salads into your weekly meal plan, you can ensure that you are getting enough nutrients and fiber to support your weight loss goals. I also share tips for creating balanced and nutritious salad meals, as well as how to store your dressings and sauces for maximum freshness. In conclusion, if you are looking for a delicious and healthy way to support your weight loss goals, then vegetable salads are a great option. With my cookbook, *Fresh Vegetable Salad Recipes for Weight Loss: Tips For A Healthy Diet Plan*, you will have all the tools and knowledge you need to create delicious and nutritious salads that will help you feel full and satisfied. So why wait? Start incorporating vegetable salads into your diet today and see the amazing results for yourself. [The Diet Guide](#) J.D. Rockefeller, 2016-11-02.
