[The Question of Skill](#) Adam J. Ledger, 2025-10-02

The Question of Skill offers a re thinking of how theatre making might be understood as a skilled craft and process exploring how contemporary professional contexts allow skill to emerge in a multitude of ways often as a result of collective knowledge and collaboration The book argues that notions of skill tend to be uncritically accepted to suggest abilities that are learnt and applied or associated with a particular and stable set of techniques But skill is instead never a neutral term but suggests processes values and systems This study covers topics such as training rehearsing and performing with a focus on the roles of the actor and director As well as interdisciplinary theoretical perspectives especially drawn from cognitive studies it also discusses examples of skill as virtuosic performance Throughout the book draws on first hand observations of international contemporary theatre makers in rehearsal and performance including the contemporary work of Katie Mitchell Anne Bogart Odin Teatret the RSC the National Theatre and Encounter Productions As well as diverse training rehearsal and performance contexts it includes *Fevered Sleep's Men Girls Dance* 2016 Simon Stone's *Phaedra* National Theatre 2023 and Jan Fabre's *Mount Olympus To Glorify the Cult of Tragedy* 2015 It probes how theatre is made as an always skilled human endeavour and in a post Covid age what the future may bring

**The Animated Dad** Lorin Shahinian, Leslie Salas, 2024-01-11 The Homer Simpson esque stereotype has been a persistent trope in cartoons since programming aimed directly at children and adolescents began Young viewers are exposed to the incapable and incompetent hapless father archetype on a regular basis causing both boys and girls to expect the bare minimum of fathers while mothers hold the responsibility for all domestic and parenting work Cartoons rely heavily on toxic stereotypes for ratings when in fact healthy representations of fathers are just as successful in maintaining viewership Eleven essays written by scholars from around the world investigate the topic of fatherhood as it is represented in children's animated television shows Main themes that emerge include absent and negligent fathers single fathers generational shifts within families and raising the standard of fathering by creating secure bonds between father and child The authors uncover problematic fathers imperfect yet redemptive fathers and fathers who embody idealized parenting traits through some of our most beloved animated dads This collection demonstrates the impact that media representations of father figures have on young viewers and argues for better role models
