Migrations And Cultures Thomas Sowell, 2025-04-01 Most commentators look at the issue of immigration from the viewpoint of immediate politics In doing so they focus on only a piece of the issue and lose touch with the larger picture Now Thomas Sowell offers a sweeping historical and global look at a large number of migrations over a long period of time Migrations and Cultures shows the persistence of cultural traits in particular racial and ethnic groups and the role these groups' relocations play in redistributing skills knowledge and other forms of human capital answers the question What are the effects of disseminating the patterns of the particular set of skills attitudes and lifestyles each ethnic group has carried forth both for the immigrants and for the host countries in social as well as economic terms *Transforming Worldviews*

Paul G. Hiebert, 2008-05-01 In the past changes in behavior and in belief have been leading indicators for missionaries that Christian conversion had occurred But these alone or even together are insufficient for a gospel understanding of conversion For effective biblical mission Paul G Hiebert argues we must add a third element a change in worldview Here he offers a comprehensive study of worldview its philosophy its history its characteristics and the means for understanding it He then provides a detailed analysis of several worldviews that missionaries must engage today addressing the impact of each on Christianity and mission A biblical worldview is outlined for comparison Finally Hiebert argues for gospel ministry that seeks to transform people's worldviews and offers suggestions for how to do so Migrationsbewegungen und Rechtspopulismus nach 2015

Graham Huggan, 2008-01-01 Where now for postcolonial studies That is the central question in this new volume from one of the field's most original thinkers Not so long ago the driving force behind postcolonial criticism was literary increasingly however many have claimed that the future of postcolonial studies is interdisciplinary Interdisciplinary Measures thoroughly considers this alternative trajectory through the field of postcolonial studies by setting up a series of conversations among these newly postcolonial disciplines notably geography environmental studies history and anthropology and literary studies in which the imaginative possibilities of non Western epistemologies are brought to the fore *Migration: political, educational, gender and cultural aspects*
