Engineering Mathematics and Computing Park Gyei-Kark,Dipak Kumar Jana,Prabir Panja,Mohd Helmy Abd Wahab,2022-10-03 This book contains select papers presented at the 3rd International Conference on Engineering Mathematics and Computing ICEMC 2020 held at the Haldia Institute of Technology Purba Midnapur West Bengal India from 5 7 February 2020 The book discusses new developments and advances in the areas of neural networks connectionist systems genetic algorithms evolutionary computation artificial intelligence cellular automata self organizing systems soft computing fuzzy systems hybrid intelligent systems etc The book containing 19 chapters is useful to the researchers scholars and practising engineers as well as graduate students of engineering and applied sciences **Advanced Solid-state Devices for Emerging Nanotechnologies** Tarikul Islam,Shakeb Khan,Mohammad Khan,Monika Tomar,Shabana Mehruz,2025-09-12 Advanced Solid state Devices for Emerging Technologies provides a comprehensive overview of the transformative role played by nanotechnology in the development of solid state devices for various applications including efficient signal processing power data communication sensor and IoT enabled devices The introductory section of the book

provides the fundamental working principles of the solid state devices for signal processing energy harvesting and sensing of stimulants highlighting their significance for addressing some of the present challenges The book also discusses the key structures of the devices with different functional units the role of basic and functionalized nanomaterials in enhancing their performance with diverse applications potential for sensing powering devices and signal processing Other aspects covered include the experimental methods procedures in determining the response parameters of the devices and the application of artificial intelligence in modelling and optimization of system parameters The proposed book is useful for researchers graduate students and undergraduate students working technical professionals in engineering and the sciences

Key Features

- Discusses advanced materials and structures for developing emerging technologies for micro and nano applications
- Development of efficient interfacing and signal processing circuits with the idea of machine learning based sensor data and fault analysis
- Covers open research challenges and the future scope of research directions on emerging micro to nano technology

Advances in Intelligent Data Analysis VI A. Fazel Famili, 2005-08-30 This book constitutes the refereed proceedings of the 6th International Conference on Intelligent Data Analysis IDA 2005 held in Madrid Spain in September 2005 The 46 revised papers presented together with two tutorials and two invited talks were carefully reviewed and selected from 184 submissions All current aspects of this interdisciplinary field are addressed the areas covered include statistics machine learning data mining classification and pattern recognition clustering applications modeling and interactive dynamic data visualization

Mastering Data Engineering and Analytics with Databricks: A Hands-on Guide to Build Scalable Pipelines Using Databricks, Delta Lake, and MLflow Manoj Kumar,2024-09-30 Master Databricks to

Transform Data into Strategic Insights for Tomorrow's Business Challenges Key Features Combines theory with practical steps to master Databricks Delta Lake and MLflow Real world examples from FMCG and CPG sectors demonstrate Databricks in action Covers real time data processing ML integration and CI CD for scalable pipelines Offers proven strategies to optimize workflows and avoid common pitfalls Book Description In today's data driven world mastering data engineering is crucial for driving innovation and delivering real business impact Databricks is one of the most powerful platforms which unifies data analytics and AI requirements of numerous organizations worldwide Mastering Data Engineering and Analytics with Databricks goes beyond the basics offering a hands on practical approach tailored for professionals eager to excel in the evolving landscape of data engineering and analytics This book uniquely blends foundational knowledge with advanced applications equipping readers with the expertise to build optimize and scale data pipelines that meet real world business needs With a focus on actionable learning it delves into complex workflows including real time data processing advanced optimization with Delta Lake and seamless ML integration with MLflow skills critical for today's data professionals Drawing from real world case studies in FMCG and CPG industries this book not only teaches you how to implement Databricks solutions but also provides strategic insights into tackling industry specific challenges From setting up your environment to deploying CI CD pipelines you'll gain a competitive edge by mastering techniques that are directly applicable to your organization's data strategy By the end you'll not just understand Databricks you'll command it positioning yourself as a leader in the data engineering space What you will learn Design and implement scalable high performance data pipelines using Databricks for various business use cases Optimize query performance and efficiently manage cloud resources for cost effective data processing Seamlessly integrate machine learning models into your data engineering workflows for smarter automation Build and deploy real time data processing solutions for timely and actionable insights Develop reliable and fault tolerant Delta Lake architectures to support efficient data lakes at scale Table of Contents SECTION 11 Introducing Data Engineering with Databricks 2 Setting Up a Databricks Environment for Data Engineering 3 Working with Databricks Utilities and Clusters SECTION 24 Extracting and Loading Data Using Databricks 5 Transforming Data with Databricks 6 Handling Streaming Data with Databricks 7 Creating Delta Live Tables 8 Data Partitioning and Shuffling 9 Performance Tuning and Best Practices 10 Workflow Management 11 Databricks SQL Warehouse 12 Data Storage and Unity Catalog 13 Monitoring Databricks Clusters and Jobs 14 Production Deployment Strategies 15 Maintaining Data Pipelines in Production 16 Managing Data Security and Governance 17 Real World Data Engineering Use Cases with Databricks 18 AI and ML Essentials 19 Integrating Databricks with External Tools Index

Smart Cyber Physical Systems Ramesh Chandra Poonia, Sugam Sharma, Ibrahim A. Hameed, Kamal Upreti, 2025-07-13

This book discusses the outcome of the ICSCPS 2024 conference proceedings which provide a comprehensive exploration of Smart Cyber Physical Systems CPS delivering deep into the intersection of the physical and digital worlds The book is a must

read for researchers engineers students and professionals seeking to understand and harness the power of CPS in today s technology driven landscape This conference s main topics encompass CPS s foundational principles from mathematical modeling and control theory to real time systems and cyber security It unravels the intricacies of sensors and actuators shedding light on their design and applications in various domains With a focus on communication and networks readers will gain insights into the critical aspects of data exchange and connectivity in CPS including wireless communication IoT integration and network security

A.I. Artificial intelligence, introduction to the issues and current trends Pavel Bartoš, 2023-01-01 Artificial Intelligence AI often referred to by the acronym Artificial Intelligence is a fascinating and dynamically developing field that has far reaching implications for various sectors of human activity At its core it is the simulation of human intelligence in computer systems AI is capable of learning planning problem solving speech recognition visual perception and many other cognitive functions that were previously considered the exclusive domain of human thought

Hands-On Artificial Intelligence on Amazon Web Services Subhashini Tripuraneni, Charles Song, 2019-10-04 Perform cloud based machine learning and deep learning using Amazon Web Services such as SageMaker Lex Comprehend Translate and Polly Key Features Explore popular machine learning and deep learning services with their underlying algorithms Discover readily available artificial intelligence AI APIs on AWS like Vision and Language Services Design robust architectures to enable experimentation extensibility and maintainability of AI apps Book Description From data wrangling through to translating text you can accomplish this and more with the artificial intelligence and machine learning services available on AWS With this book you ll work through hands on exercises and learn to use these services to solve real world problems You ll even design develop monitor and maintain machine and deep learning models on AWS The book starts with an introduction to AI and its applications in different industries along with an overview of AWS artificial intelligence and machine learning services You ll then get to grips with detecting and translating text with Amazon Rekognition and Amazon Translate The book will assist you in performing speech to text with Amazon Transcribe and Amazon Polly Later you ll discover the use of Amazon Comprehend for extracting information from text and Amazon Lex for building voice chatbots You will also understand the key capabilities of Amazon SageMaker such as wrangling big data discovering topics in text collections and classifying images Finally you ll cover sales forecasting with deep learning and autoregression before exploring the importance of a feedback loop in machine learning By the end of this book you will have the skills you need to implement AI in AWS through hands on exercises that cover all aspects of the ML model life cycle What you will learn Gain useful insights into different machine and deep learning models Build and deploy robust deep learning systems to production Train machine and deep learning models with diverse infrastructure specifications Scale AI apps without dealing with the complexity of managing the underlying infrastructure Monitor and Manage AI experiments efficiently Create AI apps using AWS pre trained AI services Who this book is for This book is for data scientists machine learning developers deep

learning researchers and artificial intelligence enthusiasts who want to harness the power of AWS to implement powerful artificial intelligence solutions A basic understanding of machine learning concepts is expected

Affective Dialogue Systems Elisabeth André, Laila Dybkjaer, Wolfgang Minker, Paul Heisterkamp, 2004-05-14 Human conversational partners are able at least to a certain extent to detect the speaker's or listener's emotional state and may attempt to respond to it accordingly When instead one of the interlocutors is a computer a number of questions arise such as the following To what extent are dialogue systems able to simulate such behaviors Can we learn the mechanisms of emotional behaviors from observing and analyzing the behavior of human speakers How can emotions be automatically recognized from a user's mimics gestures and speech What possibilities does a dialogue system have to express emotions itself And very importantly would emotional system behavior be desirable at all Given the state of ongoing research into incorporating emotions in dialogue systems we found it timely to organize a Tutorial and Research Workshop on Affective Dialogue Systems ADS2004 at Kloster Irsee in Germany during June 14-16 2004 After two successful ISCA Tutorial and Research Workshops on Multimodal Dialogue Systems at the same location in 1999 and 2002 we felt that a workshop focusing on the role of affect in dialogue would be a valuable continuation of the workshop series Due to its interdisciplinary nature the workshop attracted submissions from researchers with very different backgrounds and from many different research areas working on for example dialogue processing speech recognition speech synthesis embodied conversational agents computer graphics animation user modelling tutoring systems cognitive systems and human computer interaction
