Microlux Manual:

Oral Cancer Kalu U. E. Ogbureke, 2012-03-14 Oral cancer is a significant public health challenge globally. Although the oral cavity is easily accessible, early diagnosis remains slow compared to the enhanced detection of cancers of the breast, colon, prostate, and melanoma. As a result, the mortality rate from oral cancer for the past four decades has remained high at over 50% in spite of advances in treatment modalities. This contrasts with considerable decrease in mortality rates for cancers of the breast, colon, prostate, and melanoma during the same period. This book attempts to provide a reference friendly update on the etiologic risk factors, current clinical diagnostic tools, management philosophies, molecular biomarkers, and progression indicators of oral cancer. Contemporary Oral Oncology Moni Abraham Kuriakose, 2016-12-08 This is the first of four volumes that together offer an authoritative in depth reference guide covering all aspects of the management of oral cancer from a multidisciplinary perspective and on the basis of a strong scientific foundation. This volume on tumor biology, epidemiology, etiology, emerging role of cancer stem cells, and prevention of oral cancer opens by discussing oral carcinogenesis in general and the role of particular carcinogens and human papillomavirus. Global epidemiology and changes in disease prevalence are then addressed. Up to date information is provided on emerging cancer biomarkers and the biologic basis of personalized therapy is explained. Histopathological features of malignant and premalignant neoplasms and their relevance to management are described. Further chapters focus on the current status of chemoprevention, the management of oral submucous fibrosis, and the value of various diagnostic adjuncts. The volume concludes by critically evaluating the efficacy of oral screening methods. Volume 1: Biology, Epidemiology, Etiology, and Prevention; Volume 2: Diagnosis and Management; Volume 3: Oral and Maxillofacial Reconstructive Surgery; Volume 4: Rehabilitation and Supportive Care.
