*Microsoft Ads Training Guide* Hillary Scholl, 2021-09-03 Traffic Is The Life Blood Of Every Online Business Website Whether you re launching a product building an email list putting up a blog or any other website for that matter you need a healthy dose of traffic coming in And you can gather this traffic in various ways There is the search engine organic traffic social media traffic and the paid one called Pay Per Click Advertising But most free traffic methods take a lot of time to get them going plus it just doesn t convert all that well When we think about Paid Advertising Google Ads automatically pop up in our minds Every marketer worth their salt knows about Google Ads but many of them overlook Microsoft Ads formerly Bing Ads and its unique network of users With Google controlling the majority share of online traffic it s easy to write off Microsoft s Bing Ads as a search engine and PPC platform But Microsoft Advertising in particular has enormous potential for businesses of all sizes especially those with smaller budgets Microsoft Advertising presents a fantastic opportunity to generate search leads at a relatively lower cost and that s something all advertisers should take note of Microsoft Advertising s Audience Network Is A Hidden Gem That Brings A Lot Of Value Programmatic Offerings Microsoft Ads is Microsoft s self serve advertising platform that allows advertisers to build campaigns and target users across Microsoft s Search and Audience Network Although it started off small Microsoft s search engine has continued to grow in Google s shadow and now according to ComScore Bing and its partners make up a combined 39% of the US desktop search market In fact if you re running a paid ads campaign it could be a mistake to ignore Bing and all the possibilities it can offer you Depending on what you re selling and who you re targeting Bing could be the missing piece of the puzzle for your marketing strategy Here s why As of March 2021 Bing hit 1 038 billion unique monthly visitors worldwide This figure includes all web visits from desktop and mobile There are approximately 82 6 million Bing searches per day There are 14 6

billion PC searches made on Bing every month In 2020 revenue for Microsoft search advertising amounted to 7.74 billion In the United States Bing ranked 24 in terms of traffic Seems like it's worth paying attention to right Google search statistics show that Google dominates the search engine market with Bing placing only second However this has not stopped Bing from amassing millions of unique PC users and generating billions of search queries This year people aren't going to be spending their money in brick and mortar shops restaurants bars and clubs like they did in the past In 2021 people are going to continue spending money online So there's no better time than now to present them with your offers But The Problem Is You Can't Just Throw Up An Ad And Expect To Be In The Profit Although Microsoft Ads is a very user friendly platform there are some details that you must pay attention to if you want to see success We Take Pride In Presenting Microsoft Ads Training Guide Microsoft Ads training encompassing everything you need to know to get started with Microsoft Ads and optimize your campaigns for maximum profits
