Against Ambience Seth Kim-Cohen, 2013-12-05 Against Ambience diagnoses in order to cure the art world's recent turn toward ambience Over the course of three short months June to September 2013 the four most prestigious museums in New York indulged the ambience of sound and light James Turrell at the Guggenheim Soundings at MoMA Robert Irwin at the Whitney and Janet Cardiff at the Met In addition two notable shows at smaller galleries indicate that this is not simply a major donor movement Collectively these shows constitute a proposal about what we want from art in 2013 It's impossible to play possum While we're in the soft embrace of light the NSA and Facebook are still collecting our data the money in our bank accounts is still being used to fund who knows what without our knowledge or consent the government we elected is still imprisoning and targeting people with whom we have no beef We deserve an art that is the equal of our information age Not one that parrots the age's self assertions or modes of dissemination but an art that is hyper aware vigilant active engaged and informed We are now one hundred years clear of Duchamp's first readymades So why should we find ourselves so thoroughly in thrall to ambience Against Ambience argues for an art that acknowledges its own methods and intentions its own position in the structures of cultural power and persuasion Rather than the warm glow of light or the soothing wash of sound Against Ambience proposes an art that cracks the surface of our prevailing patterns of encounter initiating productive disruptions and deconstructions

Screening the Operatic Stage Christopher Morris,2024-03-29 An ambitious study of the ways opera has sought to ensure its popularity by keeping pace with changes in media technology From the early days of television broadcasts to today s live streams opera houses have embraced technology as a way to reach new audiences But how do these new forms of remediated opera extend amplify or undermine production values and what does the audience gain or lose in the process In Screening the Operatic Stage Christopher Morris critically examines the cultural implications of opera s engagement with screen media Foregrounding the potential for a playful exchange and self awareness between stage and screen Morris uses the conceptual tools of media theory to understand the historical and contemporary screen cultures that have transmitted the opera house into living rooms onto desktops and portable devices and across networks of movie theaters If these screen cultures reveal how inherently technological opera is as a medium they also highlight a deep suspicion among opera producers and audiences toward the intervention of media technology Ultimately Screening the Operatic Stage shows how the conventions of televisual representation employed in opera have masked the mediating effects of technology in the name of fidelity to live performance
