Online Making Sense Guide Sensory Issues:

Championing Your Autistic Teen at Secondary School Debby Elley, Gareth D. Morewood, 2022-05-19 The transition to secondary school can be a daunting time for parents of autistic youngsters as well as children themselves Have you selected the right place What if staff don't really understand your child's needs Will they adapt sufficiently and if not then what happens The good news is that you have the ability as a parent or carer to address these concerns rather than leaving it all to chance This book will give you the tools to do just that From choosing the right school for your child and spotting the tell tale signs of the wrong one to preparing both your child and the new school for the transition to overcoming barriers and building a positive collaborative and effective relationship between home and school Tackling key topics from the point of view of both parent and teacher and using examples of great practice this contains everything you need to know in order to build a more positive secondary school experience for your child

Making Sense Rachel S. Schneider, 2016-02 Our senses Thanks to them our brains are constantly flooded with information about the world around us What may surprise you is that we're not all wired the same way and some of us are unable to understand exactly what we're sensing People with sensory processing disorder SPD a newly identified neurological condition as well as those with an autism spectrum disorder ASD are frequently misunderstood by others when they over or under react to sounds sights smells tastes touch movement balance and feelings within their bodies In this guide mental health counselor SPD community advocate and sensory adult Rachel S Schneider MA MHC helps us to make sense of sensory issues Whether you're someone with sensory issues a loved one supporting a sensory person a professional or someone that is curious about unusual and complex sensory experiences this guide will answer your questions about life with sensory processing differences

Adult Interactive Style Intervention and Participatory Research Designs in Autism Lila Kossvyaki, 2017-09-13 Regardless of their cognitive and linguistic abilities people with autism can often find it difficult to develop basic communicative skills that are necessary to gain full control over their environment and maintain their independence Building on the author's own cutting edge research *Adult Interactive Style Intervention and Participatory Research Designs in Autism* examines the impact that the interactive style of neurotypical individuals could have on the spontaneous communication of children with autism This book provides clear and detailed guidance on how to conduct research into autism in real world settings such as schools and homes Kossvyaki critically evaluates a wealth of relevant case studies and focuses on a number of methodological issues that researchers are likely to face when carrying out research of this complex nature The author walks the reader through present literature on the importance of spontaneous communication and the atypical way that this tends to develop in autism before bringing the results of her own research to bear on the question of how the interactive styles of neurotypical individuals can impact on the spontaneous communication of people with autism *Adult Interactive Style Intervention and Participatory Research Designs in Autism* is essential reading for academics researchers and postgraduate students in the fields of special educational needs inclusion autism research
