Getting to Grips with BIM James Harty, Tahar Kouider, Graham Paterson, 2015-12-14 With the UK government's 2016 BIM threshold approaching support for small organisations on interpreting filtering and applying BIM protocols and standards is urgently required Many small UK construction industry supply chain firms are uncertain about what Level 2 BIM involves and are unsure about taking first steps towards having BIM capability As digitisation increasingly impacts on work practices Getting to Grips with BIM offers an insight into an industry in change supplemented by practical guidance on managing the transition towards more widespread and integrated use of digital tools to manage the design construction and whole life use of buildings

Delivering Value with BIM Adriana Sanchez, Keith Hampson, Simon Vaux, 2016-03-31 Building Information Modelling BIM is a global phenomenon which is gaining significant momentum across the world Currently there is little information on how to realise and monitor benefits from implementing BIM across the life cycle of a built environment asset This book provides a practical and strategic framework to realise value from implementing BIM by adapting Benefit Realisation Management theory It presents an approach for practitioners aiming to implement BIM across the life cycle of built environment assets including both buildings and infrastructure Additionally the book features wide ranging information about BIM the challenges of monitoring progress towards benefit goals and the greater context of implementation a set of dictionaries that illustrate how benefits can be achieved what the benefit flows are and the enabling tools and processes that contribute to achieving and maximising them a suite of measures that can serve to monitor progress with examples of how they have been used to measure benefits from BIM real world examples from across the world and life cycle phases that show how these benefits can be achieved and information on international maturity and competency measures to complement the value realisation framework Including a blend of academic and industry input this book has been developed in close collaborative consultation with industry government and international research organisations and could be used for industry courses on BIM benefits and implementation for asset management or by universities that teach BIM related courses

BIM for Facility Managers IFMA, 2013-04-03 A practical look at extending the value of Building Information Modeling BIM into facility management from the world's largest international association for professional facility managers Building owners and facility managers are discovering that Building Information Modeling BIM models of buildings are deep reservoirs of information that can provide valuable spatial and mechanical details on every aspect of a property When used appropriately this data can improve performance and save time effort and money in running and maintaining the building during its life cycle It can also provide information for future modifications For instance a BIM could reveal everything from the manufacturer of a light fixture to its energy usage to maintenance instructions BIM for Facility Managers explains how BIM can be linked to facility management FM systems to achieve very significant life cycle advantages It presents guidelines for using BIM in FM that have been developed by public and private owners such as the

GSA There is an extensive discussion of the legal and contractual issues involved in BIM FM integration It describes how COBie can be used to name capture and communicate FM related data to downstream systems There is also extensive discussion of commercial software tools that can be used to facilitate this integration This book features six in depth case studies that illustrate how BIM has been successfully integrated with facility management in real life projects at Texas A M Health Science Center USC School of Cinematic Arts MathWork s new campus Xavier University State of Wisconsin Facilities University of Chicago Library renovation BIM for Facility Managers is an indispensable resource for facility managers building owners and developers alike **BIM Handbook** Rafael Sacks, Charles Eastman, Ghang Lee, Paul
