One With Nineveh Politics Consumption And The Human Future:

One With Nineveh Paul R. Ehrlich, Anne H. Ehrlich, 2013-04-10 Named a Notable Book for 2005 by the American Library Association One with Nineveh is a fresh synthesis of the major issues of our time now brought up to date with an afterword for the paperback edition Through lucid explanations telling anecdotes and incisive analysis the book spotlights the three elephants in our global living room rising consumption still growing world population and unchecked political and economic inequity that together are increasingly shaping today's politics and humankind's future One with Nineveh brilliantly puts today's political and environmental debates in a larger context and offers some bold proposals for improving our future prospect

Kollaps Jared Diamond, 2014-11-20 Der Weltbestseller als erweiterte Neuauflage Die bewucherten Tempelruinen von Angkor Wat die zerfallenden Pyramiden der Maya in Yucatan und die riesigen Moai Statuen der Osterinsel sie alle sind stille Zeugen von einstmaligen blühenden Kulturen die irgendwann verschwanden Doch was waren die Ursachen dafür Jared Diamond zeichnet in seiner erweiterten faszinierenden wie hochaktuellen Studie die Muster nach die dem Untergang von Gesellschaften oder ihrem Zerleben zugrunde liegen und zeigt was wir für unsere Zukunft daraus lernen können

Globalization and Politics Jan-Erik Lane, 2017-11-28 Globalization and Politics brings together vision and imaginative insight to the analysis of the evolution of inter state politics to produce a clear comprehensive and coherent sense of how globalization works and how it might work better The study looks upon globalization as a distinct set of phenomena energy economy environment and politics all of which interact Presenting opportunities for interdependency and governance globalization offers both dangers and promises which explains why it is equally feared and praised Globalization is an economic trend with strong spillovers and as such has become a political trend with cultural implications This volume is an invaluable highly readable new text for graduate and undergraduate courses It sets out the key challenges for globalization in the 21st century and looks at the challenges responses and risks of globalization It is required reading for analysts students and professionals who want to understand what's at stake in the globalization debate

[The Politics of the Earth](#) John S. Dryzek, 2013 John Dryzek provides an accessible introduction to thinking about the environment by looking at the way people use language on environmental issues He analyses the main discourses from the last 30 years and those likely to be influential in future

John A Collected Essays 1 John S Avery, 2016-02-06 This book contains a collection of essays and articles by John Scales Avery discussing the severe problems and challenges which the world faces during the 21st century Human civilization and the biosphere are threatened by catastrophic climate change Unless rapid steps are taken to replace fossil fuels by 100% renewable energy we risk passing a tipping point beyond which uncontrollable feedback loops could produce a 6th extinction event comparable to those observed in the geological record Another serious threat to human civilization and the biosphere is the danger of a catastrophic thermonuclear war Over a long period of time there is an ever increasing risk that such a war will occur by accident or miscalculation Thirdly there is threat of an extremely serious and

widespread famine produced by the climate change rapidly growing populations and the end of the fossil fuel era We must urgently address all three challenges **Green Ethics and Philosophy** Julie Newman,2011-06-28 Covers the moral relationship between humans and their natural environment specifically targeting the contemporary green movement

The Green Devotional Karen Speerstra,2010-01-01 Secular and sacred ancient and new words for contemplation and inspiration to act in defense of the earth Our planet our home is in crisis plain and simple and this collection of quotes poems essays and prayers will inspire all to actively reverse the man made causes of global warming stem the tide of environmental destruction and reconnect to the good earth Short essays of topical interest introduce each of the eight sections of this book and the 250 voices inside most of them contemporary began to harmonize together as they seem to call out for their own canonical structure one bounded by the ancient elements Earth Air Fire Water This collection of voices is like a green book of devotional hours reminiscent of the Books of Hours medieval people used to hold in their palms And like that medieval book The Green Devotional reminds us that we are connected to something broader and wiser than ourselves Including selections from Rachel Carson Cornel West Bill McKibben Alice Walker Sue Monk Kidd Dean Koontz Barbara Kingsolver Daniel Pinchbeck Arundhati Roy and many others The Green Devotional ends with a section of Closing Prayers that prepare us not just to go to sleep but to rest up for another day of passionate action **Here We May Rest** Silvia Giagnoni,2017-04-02

Hailed as the most restrictive immigration bill in the nation the Beason Hammon Alabama Taxpayer Citizen Protection Act known as HB 56 went into effect in September 2011 Its intent was to create jobs for Alabamians by making the lives of undocumented immigrants in the state impossible so that they would self deport It failed Here We May Rest offers a comprehensive explanation of how and why HB 56 came about and reports on its effects on immigrant communities Author Silvia Giagnoni argues that the legislation was anti immigrant not merely anti illegal immigration as its proponents claimed Building a case against the legalistic framework through which the bill was promoted Giagnoni dissects the role the media and Fox News specifically played in criminalizing immigrants as well as mainstreaming immigrant haters which created the xenophobic climate that paved the way for the Trump Presidency The new immigrants of Alabama take center stage in the second part of the book reclaiming their role in the cultural social and economic development of the state Giagnoni concludes with an appeal against any form of social segregation because only direct contact massive prolonged equal and intimate as Howard Zinn argued will cure the stereotyping and prejudice that feed ignorance and foster fear **Environmental**

Transformations Ernest N. Emenyonu,2020 Investigates what literary strategies African writers adopt to convey the impact of climate transformation and environmental change This special issue examines the ways fiction and poetry engage with environmental consciousness and how African literary criticism addresses the implications of global environmental transformations Does environmentalist literature offer new possibilities for critical thinking about the future What constitutes environmentalist fiction and poetry What kind of texts themes and topics does climate writing include Does any text in which

the environment features become available to environmentalist criticism In their engagement with the diverse genres themes and frameworks through which contemporary African writers address topics including urbanisation cross species communication nature and climate change contributors to this special issue help to define African environmental writing They look at the literary strategies adopted by creative writers to convey the impact of environmental transformation in narratives that are historically informed by a century of colonialism nationalist political activism urbanisation and postcolonial migration How does environmental literature intervene in these histories Can creative writers with their powerfully post human and cross species imaginations carry out the ethical work demanded by contemporary climate science From Tanure Ojaide's and Helon Habila's attention to environmental decimation in the Niger Delta through to Nnedi Okorafor's and Kofi Anyidoho's imaginative cross species encounters the special issue asks how literature mediates the specificities of climate change in an era of global capitalism and technological transformation and what the limits of creative writing and literary criticism are as tools for discussing environmental issues This volume also includes a Literary Supplement Guest Editors Cajetan Iheka Associate Professor of English Yale University and Stephanie Newell Professor of English Yale University Series Editor Ernest N Emenyonu Professor of Africana Studies at the University of Michigan Flint Reviews Editor Obi Nwakanma Fellow Department of English University of Central Florida

Is Anyone in Charge Here? Selwyn Yeoman, 2020-12-22 What are our responsibilities as human beings in the exercise of our undoubted powers over all other creatures and the earth itself The idea that human beings have dominion over the rest of creation is often regarded as the chief source of the world's current environmental crisis From the universities to talk back radio this is a commonly repeated theme but how strong is its basis Is Anyone in Charge Here is a critical conversation with the seminal Lynn White paper The Historical Roots of Our Ecologic Crisis Easter

Island New Zealand and ancient Mesopotamia biblical exegesis historical theology monastic movements and current environmental challenges are all explored It examines the roots of the idea of human dominion how the idea has been understood through the centuries how people have worked it into their living and how it might be constructively applied in our current crisis All this is theologically evaluated in the light of Jesus Christ being both the true human and God s way of involvement in the world as creative Word representative image and serving Lord The 21st Century Environmental Revolution: A Comprehensive Strategy for Conservation, Global Warming, and the Environment / The Fourth Wave Mark C. Henderson, 2008-05-21 This is perhaps one of the most daring works on the environment so far It argues that we have the means today to bring about major economic changes which could lead to a worldwide environmental revolution The proposed strategy would create an environment friendly business sector which would foster change on a large scale and make economies around the world greener and greener year after year It is simple economically feasible could be implemented virtually overnight and addresses not only global warming but also the conservation of resources as well as most environmental issues This book could have a significant impact on the environment and our future Website Waves of the Future Online orders blog forum donations BUY IT Lulu com CreateSpace com Amazon com US International Lulu com low shipping fees intra EU prints Canada autographs wavesofthefuture net low domestic shipping fees *Wisdom for a Livable Planet* Carl N. Ehrlich, 2010-01-08 *Conservation Biology for All* provides cutting edge but basic conservation science to a global readership A series of authoritative chapters have been written by the top names in conservation biology with the principal aim of disseminating cutting edge conservation knowledge as widely as possible Important topics such as balancing conservation and human needs climate change conservation planning designing and analyzing conservation research ecosystem services endangered species management extinctions fire habitat loss and invasive species are covered Numerous textboxes describing additional relevant material or case studies are also included The global biodiversity crisis is now unstoppable what can be saved in the developing world will require an educated constituency in both the developing and developed world Habitat loss is particularly acute in developing countries which is of special concern because it tends to be these locations where the greatest species diversity and richest centres of endemism are to be found Sadly developing world conservation scientists have found it difficult to access an authoritative textbook which is particularly ironic since it is these countries where the potential benefits of knowledge application are greatest There is now an urgent need to educate the next generation of scientists in developing countries so that they are in a better position to protect their natural resources *Perspectives and Implications for the Development of Information Infrastructures* Constantinides, Panos, 2012-05-31 In the same way that infrastructures such as transportation electricity sewage and water supply are widely assumed to be integrators of urban spaces information infrastructures are assumed to be integrators of information spaces With the advent of Web 2.0 and new types of information infrastructures such as online social networks and smart mobile platforms a more in depth understanding of the various rights to access use develop and modify information infrastructure resources is necessary *Perspectives and Implications for the Development of Information Infrastructures* aims at addressing this need by offering a fresh new perspective on information infrastructure development It achieves this by drawing on and adapting theory that was initially developed to study natural resource commons arrangements such as inshore fisheries forests irrigation systems and pastures while placing great emphasis on the complex problems and social dilemmas that often arise in the negotiations *Art, Culture and International Development* John Clammer, 2014-11-13 Culture is not simply an explanation of last resort but is itself a rich multifaceted and contested concept and set of practices that needs to be expanded appreciated and applied in fresh ways if it is to be both valued in itself and to be of use in practical development This innovative book places culture specifically in the form of the arts back at the centre of debates in development studies by introducing new ways of conceptualizing art in relation to development The book shows how the arts and development are related in very practical ways as means to achieve development goals through visual dramatic filmic and craft inspired ways It advocates not so much culture and development but rather for the development of culture Without a cultural content to economic and social transformation the problems found in much development up

rooting of cultures loss of art forms languages and modes of expression and performance may only accelerate Paying attention to the development of the arts as the content of development helps to amend this culturally destructive process Finally the book argues for the value of the arts in attaining sustainable cultures promoting poverty alleviation encouraging self empowerment stimulating creativity and the social imagination which in turn flow back into wider processes of social transformation Discussion questions at the end of each chapter make this book ideal to help foster further thinking and debate This book is an inspiring read for postgraduate students and researchers in the fields of development studies cultural studies and sociology of development

Humanity's Footprint Walter K Dodds, 2008-02-06 For the first time in history humans have exceeded the sustaining capacity of Earth's global ecosystems Our expanding footprint has tremendous momentum and the insidious explosion of human impact creates a shockwave that threatens ecosystems worldwide for decades possibly centuries Walter K Dodds depicts in clear nontechnical terms the root causes and global environmental effects of human behavior He describes trends in population growth resource use and global environmental impacts of the past two centuries such as greenhouse effects ozone depletion water pollution and species extinctions and introductions Dodds also addresses less familiar developments such as the spread of antibiotic resistant genes in bacteria and the concentration of pesticides in the Arctic and other remote ecosystems He identifies fundamental human activities that have irreversible effects on the environment and draws on recent social science and game theory results to explain why people use more than their share Past behavior indicates that as resources grow scarce humans will escalate their use of what remains instead of managing their consumption Humanity's Footprint paints a lively but ultimately sobering picture of our environmental predicament Dodds calls for a consilient approach to socioenvironmental restoration that draws on new thinking from across disciplines to develop sustainable solutions to global environmental problems
