The Twilight Saga Claudia Bucciferro, 2013-12-12 When Stephenie Meyer's first novel *Twilight* was published in 2005 it had an astounding reception selling millions of copies. The three sequels that followed *New Moon*, *Eclipse*, and *Breaking Dawn* became international bestsellers as well. The worldwide success of the movie adaptations further cemented the series as a cultural force on par with other popular franchises such as *Harry Potter*. But why is this? What is it about *Twilight* that makes it so appealing to people? And what does *Twilight*'s success reveal about transnational cultural trends? In *The Twilight Saga: Exploring the Global Phenomenon*, Claudia Bucciferro has assembled a collection of essays that examine the series from a variety of perspectives. The essays in this volume consider both the books and the movies, emphasizing the relationships among the texts, the audience, the entertainment industry, and other aspects of the multimillion-dollar franchise. Organized into five sections, the chapters offer a contextualization of the series, appeal, explore different types of *Twilight* audiences, analyze the cultural referents associated with the main characters, and present new ideas regarding representations of gender, sex, class, and race. Concluding essays examine the saga's influence, unveiling its links to newer works such as *The Hunger Games*, *True Blood*, and *Fifty Shades of Grey*. Making sense of how the popular franchise fits within larger contexts, this collection addresses *Twilight* from an interdisciplinary framework including insights from history, philosophy, literature, sociology, fan studies, intercultural communication, film studies, and more. Featuring contributions by scholars from the United States, France, Spain, Chile, and Australia, this book emphasizes the international and intercultural relevance of the *Twilight* phenomenon. The collection is aimed at scholars and students of media and popular culture, but it will also appeal to general readers who are familiar with the series.

Producing Precarity Curtis Marez, 2025-08-26 The hidden cost of TV production for communities of color. *Producing Precarity* is a long overdue examination of the television industry's practice of offshoring production to impoverished sites within the US. The author, Curtis Marez, focuses on state efforts to attract film and TV producers to poor places with tax incentives, discounted public lands, and subsidized infrastructures. He argues that these efforts result in the redistribution of wealth from poor people of color, Indigenous people, and other taxpayers to Los Angeles-based media makers, while also diverting money that could be used for education and health care to the wealthy. The popular series produced in these places, such as *Breaking Bad*, *The Watchmen*, *Lovecraft County*, *The Walking Dead*, and *Vida*, are praised by critics and awards organizations and highlighted by streaming services for challenging genre, casting, and narrative conventions. However, many of these shows rely on racialized and gendered low-wage labor for production, and diversity, equity, and inclusion representations can sometimes perpetuate repression, such as depicting police as diversity champions. *Producing Precarity* examines how contemporary streaming shows from these areas promote racial inequality in ideology and content, as well as materially through their local production methods and perceptually through streaming distribution modes that discourage viewers from understanding how TV is made. Marez also provides examples of local resistance, including movements against a police training center and a film studio in Atlanta, as well as anti-gentrification.
