Server's high availability and disaster recovery feature set Handling and Exchanging Electronic Evidence Across Europe
Maria Angela Biasiotti, Jeanne Pia Mifsud Bonnici, Joe Cannataci, Fabrizio Turchi, 2018-06-26 This volume offers a general overview on the handling and regulating electronic evidence in Europe presenting a standard for the exchange process. Chapters explore the nature of electronic evidence and readers will learn of the challenges involved in upholding the necessary standards and maintaining the integrity of information. Challenges particularly occur when European Union member states collaborate and evidence is exchanged as may be the case when solving a cybercrime. One such challenge is that the variety of possible evidences is so wide that potentially anything may become the evidence of a crime. Moreover the introduction and the extensive use of information and communications technology ICT has generated new forms of crimes or new ways of perpetrating them as well as a new type of evidence. Contributing authors examine the legal framework in place in various EU member states when dealing with electronic evidence with prominence given to data protection and privacy issues. Readers may learn about the state of the art tools and standards utilized for treating and exchanging evidence and existing platforms and environments run by different Law Enforcement Agencies LEAs at local and central level. Readers will also discover the operational point of view of LEAs when dealing with electronic evidence and their requirements and expectations for the future. Finally readers may consider a proposal for realizing a unique legal framework for governing in a uniform and aligned way the treatment and cross border exchange of electronic evidence in Europe. The use collection and exchange of electronic evidence in the European Union context and the rules practises operational guidelines standards and tools utilized by LEAs judges Public prosecutors and other relevant stakeholders are all covered in this comprehensive work. It will appeal to researchers in both law and computer science as well as those with an interest in privacy digital forensics electronic evidence legal frameworks and law enforcement **VBA für Office-Automatisierung und Digitalisierung**
