Your Face Belongs to Us Kashmir Hill, 2023-09-19 NATIONAL BESTSELLER The story of a small AI company that gave facial recognition to law enforcement billionaires and businesses threatening to end privacy as we know it The dystopian future portrayed in some science fiction movies is already upon us Kashmir Hill's fascinating book brings home the scary implications of this new reality John Carreyrou author of *Bad Blood* A BEST BOOK OF THE YEAR Financial Times Los Angeles Times Wired Winner of the Inc Non Obvious Book Award Longlisted for the Financial Times and Schrodgers Business Book of the Year Award New York Times tech reporter Kashmir Hill was skeptical when she got a tip about a mysterious app

called Clearview AI that claimed it could with 99 percent accuracy identify anyone based on just one snapshot of their face. The app could supposedly scan a face and in just seconds surface every detail of a person's online life: their name, social media profiles, friends, and family members' home address and photos that they might not have even known existed. If it was everything it claimed to be, it would be the ultimate surveillance tool, and it would open the door to everything from stalking to totalitarian state control. Could it be true? In this riveting account, Hill tracks the improbable rise of Clearview AI, helmed by Hoan Ton That, an Australian computer engineer, and Richard Schwartz, a former Rudy Giuliani advisor, and its astounding collection of billions of faces from the internet. The company was boosted by a cast of controversial characters, including conservative provocateur Charles C. Johnson and billionaire Donald Trump backer Peter Thiel, who all seemed eager to release this society-altering technology on the public. Google and Facebook decided that a tool to identify strangers was too radical to release, but Clearview forged ahead, sharing the app with private investors, pitching it to businesses, and offering it to thousands of law enforcement agencies around the world. Facial recognition technology has been quietly growing more powerful for decades. This technology has already been used in wrongful arrests in the United States. Unregulated, it could expand the reach of policing as it has in China and Russia to a terrifying dystopian level. *Your Face Belongs to Us* is a gripping true story about the rise of a technological superpower and an urgent warning that in the absence of vigilance and government regulation, Clearview AI is one of many new technologies that challenge what Supreme Court Justice Louis Brandeis once called the right to be let alone.

Designing Mobile Payment Experiences Skip Allums, 2014-08-13 Now that consumer purchases with mobile phones are on the rise, how do you design a payment app that's safe, easy to use, and compelling? With this practical book, interaction and product designer Skip Allums provides UX best practices and recommendations to help you create familiar, friendly, and trustworthy experiences. Consumers want mobile transactions to be as fast and reliable as cash or bank cards. This book shows designers, developers, and product managers from startups to financial institutions how to design mobile payments that not only safeguard identity and financial data but also provide value-added features that exceed customer expectations. Learn about the major mobile payment frameworks: NFC, cloud, and closed loop. Examine the pros and cons of Google Wallet, Isis, Square, PayPal, and other payment apps. Provide walkthroughs, demos, and easy registration to quickly gain a new user's trust. Design efficient point-of-sale interactions using NFC, QR barcodes, or geolocation. Add peripheral services such as points, coupons, and offers, and money management.

Chronicles of Care: A Design History of the

COVID-19 Virus Paul A. Rodgers, Fernando Galdon, Craig Bremner, 2024-04-16 The Covid 19 crisis and the designed interventions that the authors have catalogued in this book prove definitively that design does care The authors documented this as it evolved every day from the 1st January 2020 to 31st May 2020 inclusive Then they looked at all of this care and caring from the point of view of design and by the sheer volume of design interventions they have documented illustrate that design is good in a crisis What the Covid 19 pandemic illustrated is that for the first time in modern history capital was totally irrelevant Money could not save your life Only design could Rapidly designed masks shelters hospitals instructional posters infographics dashboards respirators sanitisers virtual and local communities emerged to save us From January 2020 design became king The Covid 19 global pandemic presented an ontological reality design is more than margins or profit In fact design became extremely valuable when it stopped concentrating on those things and started to care about peoples lives This brief episode in history is still repositioning the status of design and reconfiguring its signifier from consumption to care The contents of this book cover the outbreak lockdown and the beginning of the reopening in the UK In between the book functions as a history of pandemic crisis design interventions As such it is a research in the moment project where we have illustrated our thoughts and insights in tables charts and diagrams We have accepted all design interventions as valid and given them the same role and status by presenting each of them in a standard format No curation No selection No position The task of critical analysis must follow perhaps by us certainly by others [14 Tips To Become A Better Stock Trader](#)
