The Dark Side 3 Fernanda Sauerbronn, Pauline Fatien Diochon, Albert J. Mills, Emmanuel Raufflet, 2017-07-28 This third collection of outstanding contributions from the Critical Management Studies CMS Division of the Academy of Management AOM continues to challenge business practice in ways not tackled by other more typical business case studies There is a critical need for business educators to expose students and managers to the multifaceted phenomena of doing business in the twenty first century to support critical reflective moral development and to reflect and understand the complexities of organizational life Is the system broken Is there need for more systemic change The cases explore a number of critical issues at some of the largest industries and companies in the world including wealth creation and human rights in mining the CSR approaches at Coca Cola the palm oil industry and the supply chain at Apple Inc Online Teaching Notes to accompany each chapter are available on request with the purchase of the book **Historic Documents of 2016** Heather

Kerrigan, 2017-06-22 Published annually since 1972 the Historic Documents series has made primary source research easy by presenting excerpts from documents on the important events of each year for the United States and the World Each volume pairs 60 to 70 original background narratives with well over 100 documents to chronicle the major events of the year from official reports and surveys to speeches from leaders and opinion makers to court cases legislation testimony and much more Historic Documents is renowned for the well written and informative background history and context it provides for each document Organized chronologically each volume covers the same wide range of topics business the economy and labor energy environment science technology and transportation government and politics health and social services international affairs national security and terrorism and rights and justice Each volume begins with an insightful essay that sets the year's events in context and each document or group of documents is preceded by a comprehensive introduction that provides background information on the event Full source citations are provided Readers have easy access to material through a detailed thematic table of contents and each event includes references to related coverage and documents from the last ten editions of the series [A Survey on Today's Smartphone Usage](#) Tobias Himmelsbach, 2012-05-26 Diploma Thesis from the

year 2011 in the subject Computer Science Miscellaneous grade 2 3 Technical University of Berlin Agententechnologien in betrieblichen Anwendungen language English abstract The smartphone market is evolving rapidly irrespective of the well known spread within the business sector In recent years the average users tend to replace their traditional mobile phones PDAs and Palms with smartphones These devices have become a pervasive part of everyday life Dealing with huge amounts of data the mobile device's and application's demand for certain security standards cannot be underestimated In recent studies the individual user's needs in terms of technical features applications etc have not been addressed and analyzed properly To capture the problem in its full extent it is vital to understand the user's expectations Besides the usage patterns have to be described especially against the background of security aspects As mentioned before recent analyzes did not

specifically ask what the user expects from a smartphone Hence the main objective of this work is to get a broad picture on how smartphones are used today and what users expect taking into consideration security aspects An international web based online survey was designed and performed to measure and analyze users behaviour when using smartphones with the aim of finding out what they want and expect from a smartphone The main goals were to identify user needs in the context of smartphones to analyze their knowledge and acquisition to security aspects and to get significant data about the user s behaviour The main findings of the survey are that on the one hand most of the users want a smartphone to provide classic mobile phone features such as performing phone calls writing messages or storing contacts On the other hand they want a smartphone to provide mobile internet access navigation features multimedia aspects a comfortable usability and a good lo
