De Gruyter Handbook of Media Technology and Innovation Richard A. Gershon, 2025-01-27 The De Gruyter Handbook of Media Technology and Innovation brings together scholars from around the world to provide key insights on emerging technology trends and issues related to the fields of media management information technology product design planning and digital lifestyle This handbook is about the power of good ideas It s about those business enterprises government planners educators and entrepreneurs that have harnessed the power of good ideas to become real difference makers in the world we live in Keeping pace with fast paced technology change requires ongoing assessment and reassessment of the media management and technology fields to address important questions and emerging issues A major premise of this book is that given the complex and ever changing state of media technology we have a responsibility and obligation to engage in a broader interdisciplinary dialogue whose purpose is to understand the current and future state of media technology and innovation as well as to appreciate the social impact that such technologies have on business education and the general public Forecasting the future as any weatherperson or stock broker can tell you is a risky business But in this book we use the phrase the creative next step as a way to talk about the future and what we can expect in terms of the opportunities and challenges going forward *The Coming Storm* Gabriel Gatehouse, 2024-09-05 Is this how democracy dies Based on his smash hit podcast *The Coming Storm* is Gabriel Gatehouse s brilliant exploration of the roots of Q Anon and the rise of the extreme right in the US It s a story that reaches back decades showing how a dark fantasy embedded itself in the American consciousness threatening to derail its democracy and it continues to unfold today Gatehouse s riveting book takes you down a rabbit hole one that both the US as a nation and he as a journalist fell through to unpack an epochal shift in political culture that starts in the earliest years of the Clinton administration and reaches a crescendo on 6 January 2021 with the storming of the US Capitol But that event wasn t the wild finale of a chaotic Trump presidency many hoped for it was only the beginning

A compelling mix of reportage and personal experience *The Coming Storm* gets under the skin of these conspiracy theories to show us a radical new kind of politics emerging a movement that has coalesced around a loose alliance of white supremacists men's rights activists tech bros and radically disenchanted leftists As we approach the 2024 US presidential election and perhaps the most perilous moment in the history of American democracy Gatehouse's book tells us some dark truths about our present and provides clues about our future It marks the debut of a major new voice in political journalism
